#### Translation

Nurse: Hello, Organ Transplant.

Investigator: Hello! How are you? Organ Transplant. Is this Zhengzhou People's Hospital?

Nurse: Yes.

Investigator: Then here're some questions I'd like to ask. As my nephew suffers from a kidney disease and wants to get a transplant at your hospital. I'm not sure if your hospital is still doing it?

Nurse: We do!

Investigator: I'd like to know, how long do we have to wait after we arrive?

Nurse: That's hard to say.

Investigator: So...

Nurse: In some cases, they got it done in just a few days after they arrived. But in some cases, they had to wait for three to four months, or even five to six months.

Investigator: How many cases can you do at your hospital each year?

Nurse: Over 200 cases.

Investigator: Over 200 cases are done, so is there any shortage of beds there? That's to say, can the patient get admitted into the hospital as soon as he arrives? Can he be hospitalized when he arrives?

Nurse: We are nearly at full capacity now.

Investigator: Nearly at full capacity...so we need to make a reservation in advance, don't we?

Nurse: Yes, you do.

Investigator: Well, I'd like to know, how much is it for one Kidney transplant?

Nurse: Oh, now it's about 180,000 yuan, if just for a single kidney.

Investigator: Uh, all right, so that's less than 200,000 yuan. It can be done for about 180,000 to 200,000 yuan, right?

Nurse: That's for a single kidney alone, but if you need the surgery, it's estimated at around 300,000 yuan.

Investigator: Ah... it costs 300,000 yuan in total?

Nurse: Yes.

Investigator: Then I need to prepare for it, and borrow money. Okay, thank you, thank you!

Nurse: No problem.

Investigator: Oh, okay.

Nurse: No problem, okay.
