

WOIPFG Completes Preparation of Evidence in Anticipation of International Criminal Court Trial against the Chinese Communist Party

The World Organization to Investigate the Persecution of Falun Gong (WOIPFG) was founded on January 20, 2003. It is based in New York and has branches in Europe, Australia, Asia and Canada.

The Chinese Communist Regime (CCP) launched the nationwide persecution of Falun Gong in 1999. The CCP is an incumbent totalitarian dictatorship, and is the most evil, cunning, brutal and largest de facto terrorist entity in the world today. This is the first time in history that victims of state sanctioned persecution have undertaken a systematic investigation and collection of evidence, and launched legal, judicial and righteous actions against individual perpetrators to effectively deter further persecution.

1. Allegations Against 76,132 Individuals and 35,551 Institutions

WOIPFG has released nine sets of lists of alleged perpetrators of the persecution since December 9, 2004. As of July 10, 2016, 76,132 individuals and 35,551 institutions are suspected of engaging in persecuting Falun Gong practitioners. Among them, 7,716 individuals are from the 610 office and 9,816 individuals are from the Commission of Politics and Law. Furthermore, 891 Chinese hospitals and 9,519 surgeons are suspected of committing crimes of organ harvesting from Falun Gong practitioners.

2. As of July 15, 2016, WOIPFG Has Released 6,439 Notices and Notifications

We continue the investigation of egregious individual cases on a daily basis and then release investigation notifications. These notices are sent to the perpetrator, his work unit, authorities at the next higher level and the local community. Further investigation is then carried out among relevant personnel for verification purposes. Follow-up work is then performed in compliance with legal and judicial processes.

3. Systematic Investigation: 334 Reports, 76 About State Sanctioned Organ Harvesting

WOIPFG has finished the systematic investigation of the persecution of Falun Gong in China. As of August 18, 2016, we have published 334 reports, totaling 5.8 million words. These reports target the various apparatuses of the regime, including the Party, the administration, the military, judicial and legal branches, propaganda departments, education departments, cultural departments and overseas infiltration, etc.

Seventy-six of these reports are about organ harvesting. Our investigation indicates that 891 hospitals and 9,519 transplant surgeons across China are allegedly involved in organ harvesting from Falun Gong practitioners. WOIPFG has set up individual files on each hospital and the individual medical personnel. The evidence we have collected (such as cached webpages and medical papers) amount to more than 100GB in volume. WOIPFG investigators have made tens of thousands of telephone calls as part of this investigation, and have gathered evidence of organ harvesting crimes through these calls from members of China's most senior leadership, including five standing committee members of the CCP Central Politburo, a vice chairman of the Central Military Commission, a committee member of the Central Politburo, a defense minister, a former health minister of the General Logistics Department of the PLA and more than 20 hospitals where organ transplantation surgeons admitted to using Falun Gong practitioners as donors.

追查迫害法轮功国际组织

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

As of July 15, 2016, WOIPFG has published evidence from 60 recorded telephone interviews and 1,628 data items. All the evidence indicates that organ harvesting is a state sanctioned crime led by the CCP and ordered by the former head of the CCP, Jiang Zemin.

4. The Global Monitoring and Tracking System

The Global Monitoring and Tracking System was founded by WOIPFG in conjunction with a number of human rights organizations and individuals. The system covers more than 110 countries and nearly 500 cities. It effectively monitors and tracks Party and government officials allegedly involved in the persecution of Falun Gong, and assists in legal prosecution by helping the victims take legal action against the perpetrators while these officials travel abroad. WOIPFG has taken part in filing lawsuits against the most senior CCP officials, including Jiang Zemin, Luo Gan, Zeng Qinghong, Liu Yi and Bo Xilai, etc.
