## **WOIPFG Investigation Announcement on the CCP Officials' Involvement in Forcing Eutelsat Terminate Contract with NTDTV**

April 5, 2005

The World Organization to Investigate the Persecution of Falun Gong (WOIPFG) has recently received report that Chinese Communist Party (CCP) officials have been secretly involving in the contract renewal of Eutelsat with New Tang Dynasty Television (NTDTV). Applying political pressure and economic incentives, CCP forced the European satellite company Eutelsat to discontinue service to NTDTV, in an attempt to maintain their media control in China with their deceptive and poisonous words.

Our investigation has shown that the persecution on Falun Gong taking place now in China is of genocide nature. Yet, the response from the media around the world with respect to this issue is rather disappointing. Not only majority of overseas Chinese media has been bought or coerced by CCP to help spreading their lies, even the Western media known for their truth and balanced news coverage, considering their own interests and other factors, seldom reported on the persecution. As the result, the world till today could not thoroughly know the most vicious genocide crime of this century happening right now in China.

As an independent Chinese language media, NTDTV does not associate with any political and financial groups. The principle it upholds is admirable. It has devoted to disseminate the concepts of democracy and freedom, which enabling Chinese people living under the tyranny of CCP for more than half a century know the first time that man has his inalienable human rights. In particular, NTDTV's reports on persecution of Falun Gong have awakened more and more Chinese. They have come to know the genocide crime happening right by their sides, consequently, help to stop it and also restrain CCP from further killings.

Let's think about it. Were there a TV station like NTDTV half a century ago, which had the courage to report the Nazi's genocide of the Jewish people and call on the world to stop the atrocity, how many Jews would have been saved from the genocide?! Today, the NTDTV is doing this brave and just deed. Protecting NTDTV's broadcast to mainland China would definitely save numerous good Chinese people from the CCP dictators' brainwashing and killing!

Therefore, to renew the contract or not concerns numerous Chinese people's lives!

All the CCP officials who have plotted and involved in menacing Eutelsat to stop renewing the contract, will be taken as accomplice of the genocide!

The WOIPFG hereby announce: we will thoroughly investigate all the CCP officials involved in this incident, hold them accountable for their legal responsibilities and severely punish those plotters and participants.
