International Committee to Investigate Sujiatun Concentration Camp

March 10, 2006

Based on the concerned information and preliminary investigation, it had been verified that there is a secret concentration camp established in the Sujiatun District, Shenyang City, Liaoning Province in China. This concentration camp is suspected of purposely detaining and killing Falun Gong practitioners who refuse to give up their faith. Furthermore they harvest and supply victims' human organs to make huge profits. They have on site cremation chamber to cremate victim's corps in order to eliminate any trace of evidence. Based on the information source there are still large number of Falun Gong practitioners being detained at this facility and facing life threatening danger.

In view of this urgent and grave situation, as well as the critical evidence of appalling genocide waged by the Chinese Communist Regime against Falun Gong practitioners during the past several years; in view of this atrocity's threat to basic human rights of all people and the safety of world wide community, it is critical challenge to the most fundamental value of human society and its moral values; World Organization to Investigate the Persecution of Falun Gong (WOIPFG) decided to found the "International Committee to Investigate Sujiatun Concentration Camp," thoroughly and systematically investigate each and every suspect who was involved and participated in the killing of Falun Gong practitioners in Sujiatun Concentration Camp; put a stop to this savage and inhuman atrocity by the Chinese Communist Regime. WOIPFG urgently appeal to the government of every nation, human right organizations and all peace-loving and righteous people to jointly accomplish this mission.

WOIPFG will mobilize every available resource, adopt every possible means to investigate and gather evidence from all aspect, including direct, on the spot investigation in China. WOIPFG urge knowledgeable people to come forward with your best effort, providing detailed information on the names of organizations, institutions and individuals who participated or was involved with the killing of Falun Gong practitioners in Sujiatun Concentration Camp. Including but not limited to: participants who planed and implemented the establishment of the Sujiatun Concentration Camp; deputies and officials of the Judicial and Government System who participated in the abduction, transfer and killing of Falun Gong practitioners; administrators of medical institutions, organizations and medical personnel who participated in the harvesting and selling of human organs from Falun Gong victims; workers and other personnel who participated in the cremation of the victims' corps in order to destroy the evidence and other participating personnel who worked at Sujiatun Concentration Camp.

To every responsible individual and assailant, murderer who was involved with the criminal conduct and atrocities at the Sujiatun Concentration Camp, WOIPFG will track down each and everyone, no matter how long it takes, how far and deep we have to search. WOIPFG shall cooperate with judicial branches of other nations in the world to bring the criminals to court so that justice can be served.

During the Nuremburg War Crimes Trial the Court denied the claims (of criminals on trial) that "they were dutifully carrying out orders of superiors." The sentencing of Nazi Concentration Camp criminals serves as precedence for criminals from the Sujiatun Concentration Camp.
