The Chinese Communist Party's Evil Has Far Exceeded that of the Nazi; It Is the Enemy of Mankind

Published during the rally to end the persecution of Falun Gong at the U.S. Capitol Hill

July 18, 2013

Fourteen years ago, the Chinese Communist Party (CCP) started the destruction of righteousness and human conscience! The CCP has been using the entire state apparatus to persecute Falun Gong. The scale of CCP's crime of genocide, torture and anti-humanity is larger than any record in history. Evidences show that the CCP's evil has far exceeded that of the Nazi. The CCP is the enemy of mankind!

1. CCP's evil surpasses that of the Nazi and has the entire world implicated

In World War II, the Nazi made soap and fertilizer out of the dead. Nazi's gruesome killings still send chills down the spine. However, in the past 14 years, in pursuit of huge profit, the CCP has been extracting organs from live Falun Gong practitioners and other prisoners of conscience. When the Japanese 731 regimen conducted human experimentations on Chinese people, they did it in secrecy. However, Jinzhou City Public Security Bureau operates an "on-site psychology research center" to conduct experiments on the human death process. The "Center" received "special achievement" award and funding of 2 million yuan. Moreover, the CCP state sponsored human plastination industry has been using bodies of Falun Gong practitioners as the source of fresh cadavers. The plastinated bodies are now on exhibition in many cities in the world, where millions of innocent people pay to get a glimpse of the human bodies. Unknowingly, they have financially assisted the evil.

2. CCP's persecution of "truth, compassion, tolerance" is destruction of mankind

The persecution of "truth, compassion, tolerance" is by its very nature, destroying the human morality and conscience. The CCP uses atheism to cut the ties between human and the divine. Then it uses lies and violence to govern. It expands people's greed by luring them with fame and fortune. It turns people into evil doers so as to reach its own goal of destroying mankind. What the CCP is persecuting is actually the human morality. All those brainwashed by CCP's atheism and materialism are victims of the CCP.

Despite of its ruthless persecution of Falun Gong practitioners, CCP's destruction of the world's people is far more evil.

3. Facing investigation, the perpetrators are terrified

As a result of CCP's brainwashing and coercion, many people within the CCP system participated in the persecution, not knowing that they facing dire consequences. Once they are aware of the truth, they are terrified.

On March 3, 2013, WOIPFG published the 6th update to the list of the organizations and individuals who are suspected to have participated in the persecution of Falun Gong. The list consists of 3 categories: 1,887 individuals from the "610 Office," 2,997 individuals from the Political & Legal Affairs Committee (PLAC), the 8,841 organizations and 19,839 individuals from various levels of Chinese Communist Party (CCP) committees, public security organs, procuratorate, court, prosecutors, prisons and labor camps.

The List has generated strong actions within the CCP system. On the one hand, the WOIPFG website has been under intensified attack from the CCP hackers. On the other hand, many CCP officials whose names are on the list contacted WOIPFG to provide more information in exchange for their names being removed from the list. They understand the consequence of their actions and agree to secretly aid the investigation of WOIPFG hoping to receive certain degree with lesser punishment.

4. Facing CCP's crimes of anti-humanity, what should the world do?

WOIPFG urges governments, organizations and individuals from around the world to join the investigation of the CCP and bring all perpetrators to justice. Bringing the CCP and its accomplices to justice is a battle of historical significance to protect human morality and conscience. It is a judgment of good and evil every individual, organization, and government must face. We wish the world's people would obtain the truth and stand with the righteous. Don't miss this opportunity!

5. No perpetrators can escape the punishment, the only way out is stop the crime and cooperate with the investigation!

CCP's persecution of Falun Gong is genocide, crimes of torture and against humanity. Similar to the Nazi war criminals, obeying orders cannot be the excuse. The Nurnberg Trials are examples of each individuals being accountable for their own actions. Almost 70 years have passed, but the investigation of Nazi war criminals is still going on. This May, a 93 year old former guard at the Auschwitz death camp was arrested in Germany and charged on accessory to murder.

To all the participants of the persecution of Falun Gong, your only way out is to expose your own crimes and other people's crimes. Of course, if you choose not to expose your own crimes, other people will. You will lose your own chance. The net of law is all encompassing. Good will be rewarded and evil will be punished! This is the will of the heavens.

WOIPFG will continue to investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong, to bring such investigation to full closure no matter how long it takes or how far we have to search. WOIFPG will continue to exercise the fundamental principles of humanity and to restore and uphold justice in society.
