A: Hello. Is it the Wuhan Tongji Hospital?

B: Yes, it is.

A: Are you the Urological Surgery Department? We need to have kidney transplant.

B: Yes, this is the Kidney Transplant Department.

A: When did you start the large volume kidney transplantation?

B: We are the earliest place. We started a long time ago.

A: How many operations do you do each year?

B: Our hospital is the place where largest amount of transplants have been done. In the whole Hubei Province area, our department is the most productive one. We've done a lot because we have ample organ supplies.

A: From a patient's perspective, live kidney source is preferred. So we are looking for live organ transplantation from prisoners, for example, from those who practice Falun Gong. Is it possible?

B: Sure, it's not a problem.
