## WOIPFG Report: Wang Lijun's Colleague, a Transplant Surgeon Admits Harvesting Organs from Live Falun Gong Practitioners

Published in Chinese on Aug. 7, 2012; English translation published on Oct. 23, 2012

WOIPFG investigations show that Wang Lijun, former Police Chief and Party Secretary of Jinzhou City, as well as the director of Jinzhou Public Security Bureau's On-Site Psychology Research Center (OSPRC), is suspected to have played a major role in harvesting organs from live Falun Gong practitioners. One of the "accomplishments" of the OSPRC was the "Research on Organ Transplantation from Donors Who Have Been Subjected to Drug Injection (Translator note: from the context, it's actually the execution by lethal injection)." The project was under Wang's supervision, partnering with Beijing University, China Medical University, Jinzhou Medical University and the People's Liberation Army (PLA) 205 Hospital of Jinzhou City. All these hospitals are suspected to have performed organ transplantations on live Falun Gong practitioners. For details, please refer to <http://www.upholdjustice.org/node/214>.

On May 23, 2006, Liaoxi Business Daily Page B4 published a report titled "The highest realm and pursuit of a military doctor." The report praised Chen Rongshan, the urology chief physician of the PLA 205 Hospital of Jinzhou City, for having completed 568 cases of kidney transplants. Chen Rongshan's reputation brought him patients from all over the world, including Taiwan, Singapore, Korea, Malaysia, etc. One witness said that it only took PLA 205 Hospital 1 week to find a matching live organ. For details, please refer to <http://www.upholdjustice.org/node/218>.

WOIPFG conducted telephone investigation on Chen Rongshan, who was already retired at the time of the phone conversation. During the conversation, Chen admitted many times about harvesting organs from Falun Gong practitioners and about performing transplant surgeries. It was also discovered that all correspondence with the outside by related medical personnel was under direct and strict control of the Party and administrative branches.

Below are transcripts of 2 telephone conversations between the WOIPFG investigator and Chen Rongshan.

### Transcript 1 (May 25, 2012)
