Subject(s): Nurse, Kidney Transplant Nurses' Station, the Second People's Hospital of Shanxi Province

Summary

1. (Donor) That is hard to say. In some cases, it is pretty fast; there are also cases where the wait time is almost half a year. But we've done quite a lot recently.
2. What (Jia Zhixiang) did last year should be a few hundred cases.

Translation

Nurse: Hello. How are you?

Investigator: Hello. How are you? Is this the Second People's Hospital of Shanxi Province?

Nurse: Yes, that's right.

Investigator: A family member of mine needs to have a kidney transplant. Do I need to bring the patient here or the medical records first? Can you please tell me the procedure?

Nurse: Well, you first come here to learn about it.

Investigator: Ah. I mean, I mean I want to ask about, in Shanxi Province, how many hospitals do (kidney transplants)?

Nurse: Very few.

Investigator: Oh, very few. Then at your hospital, if (we) go there, how long could we wait, provided that we've had the tissue typing done?

Nurse: That is hard to say. In some cases, it is pretty fast; there are also cases where the wait time is almost half a year.

Investigator: So in a fast case, it is one week, or two....

Nurse: But we've done quite a lot recently.

Investigator: Quite a lot recently?

Nurse: Yes, that's right.

Investigator: So how many cases have you done this month?

Nurse: Ah, for the specifics, you come here to ask one of the doctors.

Investigator: Oh, okay. Well, I'd like to ask whether your (place) is a so-called designated COVID-19 hospital? Is it?

Nurse: No.

Investigator: Okay. Then I don't need to worry. Okay. Then I think, if I come here, which doctor do I need to look for? Which doctor to look for?

Nurse: Jia, Teacher Jia or Teacher Chen.

Investigator: Teach Jia. The name of that Teacher Jia is...What is the name of Jia?

Nurse: Uh. Jia Zhixiang.

Investigator: Jia Zhixiang. Which "zhi"? Jia Zhixiang?

Nurse: "Zhi" as in "zhixiang". Yes.

Investigator: "Zhi" as in "zhixiang" and "xiang" as in "jixiang", right?

Nurse: Right.

Investigator: Okay, it's Doctor Jia. Well, let me ask, for doctor Jia, how many cases did he do annually last year? How many can be done in a year? How many last year?

Nurse: There should be a few hundred cases done last year.

Investigator: Oh, Okay. Then there should be no issues for (his) technical skills? Are you near capacity?

Nurse: What did you say?

Investigator: Vacant beds (at your place). If hospitalized, if the doctor says to stay in

hospital, (we) don't need to wait for a bed?

Nurse: Please first come to take a look, first come to take a look, to get the tissue typing or other things done, first...yes, after getting the tissue typing done, then we think about other things. Now we are near capacity.

Investigator: Ah. Near capacity. Well, can you please let me know how much (does a kidney transplant cost)? How much money do I need to prepare? (I need to) do a budget.

Nurse: It should be fine if you first come here to ask about it once you have the time.

Investigator: Okay. All right.

Nurse: Good bye.

Investigator: Thank you. Good bye.
