Translation

Nurse: Hi!

Investigator: Hi, hello. Is this the First People's Hospital of Chenzhou City?

Nurse: Yes.

Investigator: Hi, hello. Is this Kidney Transplant, or Urology Surgery?

Nurse: Kidney transplants are done in our program. How can I help you?

Investigator: Nothing special. My family member wants to get a kidney transplant at your place. So I want to consult about it.

Nurse: Consult? (Calling Doctor Xu Zusan). Hi, Zusan, someone wants to consult about a kidney transplant. I have no idea.

(Another person answering the phone.)

Doctor Xu Zusan: Hi.

Investigator: Hi, hello! Hi, hello.

Doctor Xu Zusan: Hi. I can hear you.

Investigator: Hi, hello. What is your last name? How shall I address you?

Doctor Xu Zusan: My last name is Xu.

Investigator: Your last name is Xu?

Doctor Xu Zusan: How I can help you? Go ahead.

Investigator: Ah. My family member wants to get a kidney transplant at your place, so....

Doctor Xu Zusan: Someone in your family, or what?

Investigator: It's one of my family members, my nephew, my sister's child.

Doctor Xu Zusan: How about this. Please come to the clinic on Monday. It is hard to

explain over the phone!

Investigator: No. Let me ask a couple of simple questions. My sister wants to ask about it.

Doctor Xu Zusan: What're the questions? Go ahead.

Investigator: Yes. She wants to ask, how good your techniques are, how many cases you can do per year, and the waiting list....

Doctor Xu Zusan: Regarding the techniques, if the government allows us to do it, they are not a problem. We do fewer than other hospitals, don't do that many.

Investigator: So how many can you do a year, over 100 cases?

Doctor Xu Zusan: We cannot do that many. We can do tens of them, 60 to 70 cases.

Investigator: Ah, 60 to 70 cases. So, the patient can get hospitalized at your place upon arrival. If he joins the waiting list as soon as arrival, how long does he have to wait?

Doctor Xu Zusan: How can I tell you? That depends on your luck. You must find a donor who matches you. That's not like shopping.

Investigator: So if we are lucky, with good luck, how long can it be in the fastest case?

Doctor Xu Zusan: In the fastest case, it could be one to two months, or two to three months. That is hard to say.

Investigator: Okay, that would be fine if it's one, two or three months.

Doctor Xu Zusan: Those would be just good ones. Yes, that's right. But they cannot be all like that.

Investigator: So if I go there, which director? I mean is it you who do it?

Doctor Xu Zusan: Yes, yes.

Investigator: If we come, shall we look for you?

Doctor Xu Zusan: Yes, that's right.

Investigator: So I will look for you. I did not get it clearly, what is your last name?

Doctor Xu Zusan: My last name is Xu. Xu with Yan and Wu.

Investigator: Ah. Xu with Yan and Wu.

Doctor Xu Zusan: Yes. Monday and Thursday every week.

Investigator: What is your full name?

Doctor Xu Zusan: Xu Zusan.

Investigator: Xu Zusan?

Doctor Xu Zusan: Good.

Investigator: I got it. So we should look for you when we get there? Well, I was wondering how much the cost would be approximately?

Doctor Xu Zusan: Regarding the cost, it would be about 300,000 to 350,000 yuan everywhere in Hunan.

Investigator: Oh, that wouldn't be too bad. That's fine. So I could...you have clinic on Mondays?

Doctor Xu Zusan: Ah, yes, on Mondays and Thursdays.

Investigator: Okay. Good. Thank you then. Thank you. Okay, thank you. Okay.

Doctor Xu Zusan: Good. No problem.
