World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

**World Organization to Investigate the Persecution of Falun Gong (WOIPFG)** was founded on January 20, 2003. It is based in New York and has branches in Europe, Australia, Asia and Canada.

**Our mission** is to investigate the criminal conduct of all institutions, organizations and individuals involved in the persecution of Falun Gong; to bring such investigations, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

**The principle our investigation** is that those who committed crimes shall be brought to justice. Individuals shall bear responsibility for their involvement in their organizations' crimes, and those instigating the persecution shall bear the same responsibility as those physically carrying out the persecution. According to this principle, and to uproot state-sanctioned crimes and safeguard human morality and conscience, the criminal conduct of all individuals within organizations, units and departments involved in the persecution will be thoroughly investigated and brought to justice.

WOIPFG was established, because since July 1999, Jiang Zemin, the former head of the Chinese Communist Party (CCP), has been using China's entire state apparatus to carry out a genocidal persecution against Falun Gong practitioners. The CCP has also extended its persecution overseas. Through its slanders and fabricated rumors against Falun Gong, several billion people around the world have been deceived. Therefore, it is actually the persecution against all humanity. The current judicial system in China is a component of the CCP's tyrannical dictatorship, so it is impossible to expect China's own judicial system to openly investigate any crimes committed during the persecution, or to put a stop to the persecution. WOIPFG was founded to expose these horrific crimes against humanity to the entire world and to assist the courtroom trials, which will bring the CCP to justice in the future.

Lawsuits against the Nazis were based primarily on evidence collected after Nazi Germany's demise. It was considerably difficult to collect evidence as the genocide was underway, and any investigation during the genocide, no matter how thorough, would have been unable to stop the systematic killing during the Holocaust. Humanity has still not managed to completely rid itself of the calamities brought about by the global communist movement. A few decades after the fall of the communist parties in Eastern Europe, some traces of the former system still remain at the institutional level. In China, the Chinese Communist Party has caused the unnatural deaths of tens of millions of people, but it has never been held accountable; this has made the persecutors increasingly brutal, insane and unscrupulous.

The Chinese communist regime launched the nationwide persecution of Falun Gong in 1999. The CCP is an incumbent totalitarian dictatorship, and is the most evil and largest de facto terrorist entity in the world today. This is the first time in history that victims of state-sanctioned persecution have undertaken a systematic investigation and collection of evidence, and launched legal, judicial and righteous actions against individual perpetrators to effectively deter further persecution. WOIPFG is honored to have the privilege of initiating and participating in these activities.

### **Services Provided by WOIPFG to the Society and Victims**

### **III. The Investigation on the CCP's Live Organ Harvesting of Falun Gong Practitioners**

As of June 30, 2019, after more than a dozen years of investigation, WOIPFG had published a series of 80 investigative reports on the CCP's live organ harvesting of Falun Gong practitioners. Our investigation results reveal that 891 hospitals and 9,519 organ transplant surgeons across China have been allegedly involved in organ harvesting from Falun Gong practitioners.

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

WOIPFG investigators have made tens of thousands of telephone calls as part of this investigation, and have gathered evidence of organ harvesting crimes through these calls from members of China's most senior leadership, including five standing committee members of the CCP Central Politburo, a vice chairman of the Central Military Commission, a committee member of the Central Politburo, a defense minister, a former health minister of the General Logistics Department of the People's Liberation Army (PLA) and more than 41 hospitals, where organ transplant doctors have admitted to using Falun Gong practitioners as organ donors. As of July 15, 2017, WOIPFG had published evidence from 329 recorded telephone investigations and more than 2,000 data items.

The massive quantity of evidence indicates that the live organ harvesting of Falun Gong practitioners is a state-sanctioned crime against humanity directly ordered by the former head of the CCP, Jiang Zemin. There exist Nazi concentration camp-style live organ banks across China<sup>[1]</sup>. A large amount of evidence attests that the number of Falun Gong practitioners slaughtered by the CCP for their organs while they were still alive is enormous<sup>[2]</sup>, and this atrocity of live organ harvesting is still ongoing to this day.

### **IV. WOIPFG had Released 6,943 Investigation Notices and Notifications for the Society and the Rescue of the Victims (as of March 1, 2019)**

We continue the investigation of egregious individual cases on a daily basis and release relevant investigation notifications. These notices are directly sent to the perpetrators, their work units, their authorities at the next higher levels and their local communities. Further investigation is then carried out among relevant personnel for verification purposes. And follow-up work is then performed in compliance with legal and judicial processes, by phone, fax or official mail.

### **V. WOIPFG Runs a Global Monitoring and Tracking System for the Society and the Victims**

The Global Monitoring and Tracking System was founded by WOIPFG in conjunction with a number of human rights organizations and individuals. The system covers the Internet systems in more than 110 countries and nearly 500 cities. It effectively monitors and tracks the Chinese Communist Party and government officials allegedly involved in the persecution of Falun Gong, especially those who are suspected of having deployed resources to persecute, arrest, brainwash, abuse, torture and murder Falun Gong practitioners and those who have been directly involved in the information blockade regarding the persecution, incitement of hatred against practitioners through public opinions and illegal sentencing of practitioners to prison terms. And this system also assists the victims to take legal actions against the perpetrators while these officials travel abroad.

With this system in place, we have been able to successfully locate Zhao Zhizhen, former station chief of Wuhan TV, who acted as a "hatchet man" in smearing the reputation of Falun Gong in the CCP's anti-Falun Gong campaign, when he was visiting his relatives in the United States. And we directly delivered the indictment documents to his residence during his stay in the U.S. When Guo Chuanjie, the former head of the "Leadership Team to Deal with the Falun Gong Issue" in the Chinese Academy of Sciences, Lin Yanzhi, the former Vice Party Secretary of Jilin Province and former head of the "610 Office", and Shi Honghui, the head of the (now defunct) Labor Camp Bureau visited the United States, entered the United States, they were immediately placed under the system's surveillance. And they were successfully located, prosecuted and served with legal documents, thus laying the foundation for their eventual guilty verdicts in absentia.

At the same time, WOIPFG's Global Monitoring and Tracking System tracks and collects information on other prime suspects of the persecution of Falun Gong, their overseas assets and the whereabouts of their family members that have fled China. This is to prepare for future actions taken against the offenders, including asset freezing, reparation and eventual legal actions against their family members, who were complicit in their crimes. These steps shall utterly deter such evil crimes from being committed. No matter how long it takes, no

matter how deep we have to search, we shall carry our investigation toward the end and bring all the perpetrators to justice!

### VI. WOIPFG Assists the Victims in Their Legal Prosecution

WOIPFG has completed the investigation on a number of individuals, who have been directly involved in initiating, planning, promoting and directing the perpetration of the persecution against Falun Gong practitioners. According to the evidence collected by our investigation, WOIPFG has assisted some of the persecution victims with filing lawsuits against the most senior CCP officials, including Jiang Zemin, Luo Gan, Zeng Qinghong, Liu Yi, Bo Xilai and many others. As a result, while visiting abroad, those senior officials under WOIPFG's investigation went as far as avoiding the use of hotels' front entrances. For example, Su Rong, the Communist Party Secretary of Gansu Province, while visiting Zambia on an official trip, wouldn't dare to show up in court after receiving a subpoena from the local court as a result of a lawsuit filed by Falun Gong practitioners in Zambia. In the end, Su Rong left Zambia in secret and fled back to China via a third country in an un-official way.
