Wang Jianli: His situation is not very serious now, right?

Investigator: The situation is okay for now! His current situation is not bad. We have done the checkups in No. 307 Hospital, the doctor said, the situation is relatively good now, if we do it early, the effect will be better, so we want to do it early, they have no organs there.

Wang Jianli: So, you can come on Monday, if you are not in a hurry, just come on Monday morning, ah~ you bring the patient here around 9:00 with his information, and I will take a look at it, okay?

Investigator: That's great. Where can I find you on Monday, when I come?

Wang Jianli: Ah ~ come to the transplant division, transplant ward.

Investigator: Come to the transplant ward to find you, that's great! So after we come to you, how long do you expect to arrange the surgery?

Wang Jianli: There are various situations, it's not up to me. I have to see when there are organs available!

Investigator: Right, that is to see if there is any heart (available for transplant), right, that is, please check the situation. Roughly, I just ask, roughly, my family can arrange it, do you know?

Wang Jianli: Okay, **not sure when that can be ready, but we have a lot of organs here!**

Investigator: A lot of organs?

Wang Jianli: Right.
