

追查迫害法轮功国际组织（追查国际）

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Appendix 3

Investigation Recording 3: Zheng Shusen, President of Shulan (Hangzhou) Hospital

Investigation time: November 3, 2018 (13805749805)

Zheng Shusen was former president of the First Affiliated Hospital, School of Medicine, Zhejiang University, director of this hospital's organ transplant center, the incumbent president of Shulan (Hangzhou) Hospital, former chairman of the Chinese Transplant Congress (CTC) and chairman of China Organ Procurement Organization Alliance. He was also the chairman (from 2007 to 2017) of the Zhejiang branch of "China Anti-cult Association" (CACA), which is one of the Chinese Communist Party's (CCP) important agencies against Falun Gong.

Summary

1. A liver transplant surgery can be arranged within two weeks.
2. When being asked whether the organs were from Falun Gong practitioners, Zheng gave an irrelevant answer, but he did not negate using the organs of the Falun Gong practitioners, either.

Phone Investigation Recording

Investigator: Hello! Is that President Zheng?

Zheng Shusen: Hello!

Investigator: Hello?

Zheng Shusen: Who is that?

Investigator: Oh, you are the president of Shulan Hospital, right? President Zheng Shusen, right? I'm calling from Chengdu, Sichuan. I am the deputy director of the Office for Maintaining Stability at the Sichuan Provincial Political and Legal Affairs Commission.

Zheng Shusen: Ah, ah, ah.

Investigator: Hello, I am calling you today to ask for your help. This is the case. I have a relative in your area. He has late-stage cirrhosis, and wants to come to Shulan Hospital for a liver...liver transplant.

Zheng Shusen: He can, he can.

Investigator: I just want to make contact for him. I want to ask how long it takes to arrange an operation.

Zheng Shusen: Ah~ As for a liver transplant, it depends on his blood type, (some) can be faster. What is his blood type?

Investigator: His blood type is type B, ah, this year, he's forty...forty-five years old this year.

Zheng Shusen: Ah, 45 years old, blood type B should be relatively fast. You can come as soon as possible, and I can do it for you soon.

Investigator: Then how long do you think (he has to wait) to do (the surgery) after coming? We have to arrange someone to accompany him, or something else.

Zheng Shusen: We can do it for you roughly in about two weeks.

Investigator: Good, do it in two weeks, it's great!

Zheng Shusen: Eh, eh, all right?

Investigator: Another question is that, as for the liver source, the organ, your current organs are all healthy and normal organs of Falun Gong (practitioners), right?

Zheng Shusen: Hehe, ..., after the organs arrive, we only keep the tested ones.

Investigator: Ah, no problem, right?

Zheng Shusen: Right, right, right.

Investigator: Quality has no problem?

Zheng Shusen: Good.

Investigator: And when you take the organs, do you give them anesthesia? I heard some people said that using anesthesia will also affect the quality of the organ?

Zheng Shusen: Eh, as for the specific situation, we will do it well when taking the organ anyway, take the patient here, okay?

Investigator: Oh~ How about Monday?

Zheng Shusen: Monday is okay, come on Monday. Good, good, good.

Investigator: OK, we come to find you on Monday at Shulan Hospital, right?

Zheng Shusen: Right, I know, you can call me on this mobile phone.

Investigator: OK, good, ah~ Let me see if I have other questions, oh, right, good, then please help us.

Zheng Shusen: Well, good, good.

Investigator: OK, OK, goodbye!
