It is known to the outside world as a company named Jilin Sifangtuozi Farm (Sifangtuozi Farm for short). It's a prison administration institution located in Zhenlai County and directly managed by Jilin Provincial Prison Administration Bureau. It's also the largest prison compound in Jilin Province. Its existing land area is 234.5 square kilometers. Since 2001, based on its situation, it gradually developed a way to make profits. By applying industrial thinking to agricultural production, they implemented industrialized management, marketing, project operations and socialized services. Based on its comparative advantages in the planting, breeding and processing industries, they established a ternary industrial economic structure of

No.	Company Name	Name of the Prison, to which the Company Belongs	Legal Person and Shareholder(s)	Legal representative / Title	Registered Capital	Business Scope	Company Address	Notes on the Prison
								“planting, breeding, processing”. In terms of planting, they enhanced rice cultivation and expanded to growing commercial crops and vegetables; in terms of breeding, they developed animal husbandry focusing on sheep raising, and established its second leading industry; in terms of processing, they took internal and external partners, explored sales markets and strove to achieve annual sales of 20,000 tons of rice, to increase the added value of agricultural products, and to build its third leading industry. While building these three main product chains, four additional chains are built based on its resources and conditions. These additional chains are oil joint venture development, labor services, aquaculture and agricultural and sideline product processing. They supplement the main industries, to form a joint force of agricultural multi-economy. The Zhenlai Branch has achieved significant agricultural development. It has mainly established a model, in which agriculture is the mainstay, and is supplemented by the co-development of forestry, animal husbandry, sideline
