Translation

Nurse: Hello! Kidney Transplant.

Investigator: Hi! Is this the First Affiliated Hospital of Zhengzhou University?

Nurse: Yes.

Investigator: I'd like to send a patient there to get a kidney transplant done. Is the wait time short there?

Nurse: Pardon me? What about the kidney transplant?

Investigator: I'd like to send a patient there to have a kidney transplant. Now the wait time...

Nurse: Please call 2192. Please call 2192, 8192.

Investigator: I called that 92 number but nobody answered the phone. I would just like to get some general information. In our place they are done pretty quickly, and you have done quite a lot, right?

Nurse: We are among the top 5 in the country. The wait time depends on the tissue typing results.

Investigator: Oh. So you still do a lot of transplantations nowadays. Last year, when I sent a patient there, it seemed that you could do more than 400 kidney transplants every year, right?

Nurse: It's fewer than 400, but close to 400.

Investigator: I see, nearly 400. So, have you done a lot this year? Have you started doing it since the Chinese New Year's holidays were just over?

Nurse: Oh, we didn't take a break during the Chinese New Year's holidays, we have no holidays here.

Investigator: With no holidays, you've been doing them all the time. Have you done a lot this year?

Nurse: As long as we have kidney sources, we can do the transplants.

Investigator: Oh. Let's say, if the patient is lucky, what would be the shortest wait time?

Nurse: There were patients who found matched kidneys at their first try. They were the luckiest ones who found matched kidneys at the first try.

Investigator: So, once there is a matched kidney found, can the transplant surgery be done immediately?

Nurse: Yes, as soon as we have a kidney source that matches, we can start it right away.

Investigator: That means your kidney sources are pretty abundant?

Nurse: As I've told you, we are among the top five in the country. We are very busy now. We need to do a kidney tissue typing today.

Investigator: Okay, who is the director for kidney transplants? Which director should I make an appointment with?

Nurse: Every doctor does it, but you can go to Director Feng, Director Feng Geiwen.

Investigator: Feng Wengui. Oh. On which day of the week does he come to the clinic?

Nurse: Our center has the clinic service every Monday, Tuesday, Wednesday, and Friday.
Director Feng works on Mondays and Tuesdays.

Investigator: I see. Thanks a lot. Bye.

Nurse: Oh, you're welcome.
