

## 追查迫害法輪功國際組織（追查國際）

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

### Investigation Recording 2019-010

**Date:** March 4, 2019 (+86-2985323955)

**Subject(s):** Nurse, Kidney Transplant Inpatient Service, the First Affiliated Hospital, Xi'an Jiaotong University

### Summary

1. We've done a lot of kidney transplant surgeries—three or four operations just for today.
2. Now every year we can do over 300 kidney transplant surgeries.
3. There are over 50 hospital beds, but no beds are available right now.

### Translation

Nurse: Hello! Greetings. Kidney Transplant.

Investigator: Hello, greetings. Is this Xi'an Jiaotong University?

Nurse: Hello! Greetings.

Investigator: Is this Kidney Transplant?

Nurse: Where are you calling from?

Investigator: Ah, I'm from Ningxia, and I have a patient who needs a kidney transplant and wants to be transferred over. I'd like to ask if you still do a lot of kidney transplants nowadays?

Nurse: Do we still do a lot of kidney transplants? Well, yeah, we' re d oing fine. How may I help you?

Investigator: Then, is Doctor Zheng Jin still with this hospital? Does he still work there?

Nurse: Yes.

Investigator: Still does kidney transplant surgeries, yeah?

Nurse: Correct.

Investigator: As I...as I heard before the New Year, which was last year , back then he said that you' ve been doing a lot of cases; previously you did over 200, and now you may have been doing 300, over 300 cases.

Nurse: yes, approximately. Em, that' s about right.

Investigator: Now you can do more than 300 cases a year. Because that year he told me that you had relatively more donors, and did over 200 cases back then. Right now, you can do up to over 300 cases. Now you can do over 300, right?

Nurse: Yeah.

Investigator: So, at your hospital, is the wait time going to be long after getting there?

Nurse: That' s hard to say.

Investigator: It' s uncertain? Is there a shortage of your beds? The bed vacancy...?

Nurse: Yes, there is a shortage. Now all new patients must wait in line for their beds.

Investigator: Oh, is that so? Then you don' t have a lot of beds? How many beds do you have, eh, the bed availability?

Nurse: There are no beds available now. There are so many patients on the waiting list before you right now.

Investigator: Wow, as for your total number of beds, there are not many beds?

Nurse: The number of beds, our number of beds is okay, over 50. Why? We do not have any beds available now. Em, it's like this. If you call us, let me explain, if you want to know those details, would you please call during the day? Because I am the only nurse at night shift. We've had three or four operations done for today. I am too busy for that, I can't keep answering your questions, is that okay?

Investigator: You mean you're having three or four operations tonight?

Nurse: Is that okay? We've been doing a lot of operations. Tonight, I am the only one on duty. Is it okay for you to call tomorrow during the day? To ask more questions then?

Investigator: Yes, of course.

Nurse: I am really busy. Our patients have been ringing me non-stop. I haven't been able to get to them yet, but instead answering your phone calls.

Investigator: I will let you go then!

Nurse: You call back tomorrow during the day, alright, Mister. If you call anytime after 8 o'clock, there will be someone answering your questions. Alright?

Investigator: Alright, alright. Thank you!

Nurse: Ah, I am so sorry, Mister.

Investigator: That's alright.

Nurse: Em, Bye.
