Doctor: Hello, hello!

Investigator: Hey, hello! Is this the First People's Hospital of Kunming?

Doctor: This is Ganmei Hospital.

Investigator: Ah, Ganmei Hospital. So, if I want to have a liver transplant, which center should I get registered at? Which center should I look for?

Doctor: Liver Transplant?

Investigator: Right.

Doctor: Here at our hospital, if you come for a liver transplant, usually you come to the

Hepatobiliary and Vascular Surgery Center.

Investigator: So I'm thinking about coming to your hospital. How long will it take to get it done if I come?

Doctor: Get it done?

Investigator: Yes, I mean the wait time for a liver organ to be transplanted.

Doctor: That is hard to say. You have to come and consult with one of our doctors here.

Investigator: Ah, which doctor to look for at your Liver Transplant? Can you provide a good doctor, and give me a mobile phone number to contact?

Doctor: I don't have it.

Investigator: Oh, what unit are you in? Are you, are you working at the outpatient clinic?

Doctor: Yes, this is our outpatient clinic.

Investigator: Oh, this is an outpatient clinic. So, if I come over, I can only come to the clinic to find someone, right?

Doctor: Right, you can only come to the clinic to get registered.

Investigator: Oh, you've still been doing it anyway, right? You've always had cases to do, right?

Doctor: Right.

Investigator: Oh, it's not certain how long it takes to get it done?

Doctor: That's right, it's uncertain. You have to consult with one of our doctors about that.

Investigator: How about your bed availability for admission now? Can that be certain? Can you tell me that?

Doctor: Getting admitted into our hospital should be no problem.

Investigator: No problem with getting admitted into your hospital. So, you mean we have to talk to the doctor about when it can be done. Do you do a lot at your hospital now? I've heard that you've done a lot of cases and your technical skills are quite good. Do you do a lot each day?

Doctor: We do a lot.

Investigator: Oh, how many cases can you do in a month?

Doctor: We once did four cases at most in a day.

Investigator: We did four cases at most a day, right?

Doctor: Right.

Investigator: Oh, in that case you doctors' skills should be fine.

Doctor: Yeah.
