Doctor Shi Shaohua: Hello?

Investigator: Hello. How are you? Is this Doctor Shi Shaohua?

Doctor Shi Shaohua: Speaking.

Investigator: Hello, hello, I would like to ask you for help. As my husband is now in the People's Hospital, and needs a kidney transplant, could you help me with that?

Doctor Shi Shaohua: You can come to our hospital...You can come to our hospital, to go through the tests and assessments as needed.

Investigator: All his tests have been done, and the whole set of test results are already ready. His doctor suggested that he get it done as soon as possible.

Doctor Shi Shaohua: Where are you from?

Investigator: I'm from Zhejiang. My husband's been doing business in Taiyuan, and got that kidney problem, but I'm in Zhejiang. He is hospitalized in the People's Hospital, in

your area in Shanxi. As I was told, at yours, the Second People's Hospital of Shanxi Province, you doctors do a fairly good job there.

Doctor Shi Shaohua: Please tell him to come see me first.

Investigator: When is the best time to see you?

Doctor Shi Shaohua: Ah, when?

Investigator: Yes, what time?

Doctor Shi Shaohua: Tomorrow afternoon, I will be at the clinic tomorrow afternoon, come over a little bit later.

Investigator: You will be at the clinic tomorrow afternoon, right?

Doctor Shi Shaohua: Yeah, let him come over a little later. Come over tomorrow afternoon or Friday morning, as I will be too busy on Thursday.

Investigator: Oh, I see. Well, that, that, if that is the case, then we will try our best tomorrow, as it's pretty urgent. My classmate said you doctors can acquire those donated kidneys that are pretty young and of good quality at your hospital, right?

Doctor Shi Shaohua: Those are okay.

Investigator: They're fine, oh. As he told me, his father got it done pretty quickly, in about half a month, at your hospital. What do you think about that, according to your experience?

Doctor Shi Shaohua: That's uncertain. Some of the patients got the surgeries done as soon as the next day, or in a few days.

Investigator: Oh, if that is the case, if we come over to get him admitted into your hospital, if we get him transferred over, would there be any vacant bed available for him?

Doctor Shi Shaohua: No, no vacant bed available. That must be reserved in advance.

Investigator: My classmate said that you're quite experienced at your hospital. According to him Wu Xiao also does a good job, you are a well-respected expert, and you have been doing that for many years, right?

Doctor Shi Shaohua: Since 1992 or earlier.

Investigator: Oh, then how many cases can you do each year, if that's the case?

Doctor Shi Shaohua: We have done more than 100 cases now.

Investigator: That's good, so your techniques are pretty mature, then that makes me feel better. There have been more than 100 cases performed since the past half year. That's great, I'm relieved. I would definitely come over before his surgery is arranged, is that okay?

Doctor Shi Shaohua: Okay, alright.

Investigator: Well, thank you very much, well, Doctor Shi. Thank you so much, bye.

Doctor Shi Shaohua: Okay, okay.
