#### Summary

1. Director Yang Kunwei is in charge of the kidney transplants.
2. Come to make an appointment with a specialist at the clinic on the second floor on Thursday morning. Director Yang will be there.

#### Translation

Nurse: Hello. How are you?

Investigator: Hello. How are you? Is this Kidney Transplant of Shenyang Military Region General Hospital?

Nurse: Who is this?

Investigator: I am from Fushun. I'd like to ask whether Doctor Yang Kunwei is there.

Nurse: Director Yang? He sees the patients at the clinic on Tuesdays and Thursdays.

Investigator: I'd like to ask you a question. As I have a relative who needs a transplant, he wants to come over here to get it done, since it's closer to home. My question is, if we wait for a transplant, how long will it take? He's finished all his tests, such as his tissue typing, and now he's been waiting for it.

Nurse: That's hard to say, hard to say. It's hard to say, when it comes to waiting for a kidney source. (We) just suggest that he get his matching test done first, and then get on the waiting list. The doctor will inform you as soon as a kidney source becomes available. It's good that you're calling to inquire about us, and as for those relevant details, come to make an appointment with a specialist at the clinic on the second floor on Thursday morning. Director Yang will be there to address those relevant issues for you then.

Investigator: Well, well, I do not know anything about the kidney sources. Where are they from?

Nurse: You can first come to get his tissue typing done, and as for the specific details, come to make an appointment with Director Yang to consult about his kidney transplant.

Investigator: Well, let me ask a question. It is Yang Kunwei who has the best skills at Shenyang Military Region General Hospital, right?

Nurse: Director Yang is in charge of the kidney transplants here at our hospital.

Investigator: He is in charge?

Nurse: Yes.

Investigator: Then who does the best job? Please also recommend one.

Nurse: Director Yang is in charge of our kidney transplants.

Investigator: Then who is the best surgeon?

Nurse: Director Yang is in charge of the kidney transplants, so if you have any questions, just go ask Director Yang. Did you get it? First you come to make an appointment with a specialist to consult at the clinic on the second floor. He is fully in charge of the kidney transplants. You just ask him if you have any questions.

Investigator: Oh, oh, okay. That's fine. Thank you. Okay. Thanks.

Nurse: Bye-bye.

Investigator: Bye.
