

追查迫害法輪功國際組織（追查國際）

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

Investigation Recording 2019-072

Date: July 25, 2019 (+86-13916915799)

Subject(s): Chen Litian, Director of Liver Transplant, Xinhua Hospital Affiliated to Shanghai Jiao Tong University School of Medicine

Summary

1. We have the things (liver sources) you need for sure. But you have to come over first!
2. Investigator: “Can the surgery be done within one week?”
Director Chen Litian: “For sure it can be done!”
3. Investigator: “If all hospitals are equally quick, then I will pick the hospital with the best skills.”
Director Chen Litian: “Then you must know that I have done surgeries for so many patients.”
4. Investigator: “Quality is the most important. But I’m willing to pay a bit more, that’s no problem.”
Director Chen Litian: “Ah, sure!”
5. Investigator: “My former classmate told me to ask for an organ from a Falun Gong practitioner, like the one he used previously. Is that available right now?”
Director Chen Litian: “You bring me your files and let me take a look first, alright? The thing you just said is nonsense! Who can use those of Falun Gong practitioners? We only use state-sanctioned—normally donated organs.” ... “(What your former classmate said is) impossible! I have never used that kind (of organs).”... “We are a legitimate hospital and do not do those things!”... “I have never heard of anyone donating Falun Gong people’s organs in this entire country. We do not have any livers from Falun Gong practitioners, and we do not have that kind of donors, so stop spouting nonsense! He was just making things up! Bullshit! Totally insane! None of us would use that kind of organs (from Falun Gong practitioners). Throughout the entire People’s Republic of China, the whole country, nationwide, nobody uses that kind of organs (from Falun Gong practitioners). He is totally nuts and out of his mind!”

Translation

Investigator: Hi, hello!

Director Chen Litian: Hello!

Investigator: Hi, how are you, is this Director Chen Litian?

Director Chen Litian: Who am I speaking to?

Investigator: Hello! I'm from Zhejiang. My husband wants to have a liver transplant.

Director Chen Litian: Ah, you're... where are you right now? Where's the patient?

Investigator: The patient is in my hometown, Taizhou, Zhejiang province.

Director Chen Litian: Oh, you're from Taizhou, Zhejiang. Who are you? Are you one of Ji Jianmin's relatives?

Investigator: Huh?

Director Chen Litian: Hi, who recommended me to you? Was that Zhang Fuping?

Investigator: It wasn't Zhang Fuping, but my former classmate recommended you, as he had a surgery here and told me that you're really good and (the surgery was) very successful.

Director Chen Litian: Ah, ah, what's your current situation?

Investigator: I was in Shanghai yesterday, and I visited Ruijin Hospital and had a consultation there.

Director Chen Litian: Ah, ah.

Investigator: I'm asking every hospital. I'll go wherever the surgery can get done the quickest.

Director Chen Litian: Where's the patient now?

Investigator: The patient is in my hometown—Taizhou, Zhejiang.

Director Chen Litian: Does he have liver cancer, cirrhosis, or hepatic coma?

Investigator: Uh, it's hepatic tumor—liver cancer—tumor.

Director Chen Litian: Then you should bring me his files to take a look, and what's his blood type?

Investigator: (He has) blood type B.

Director Chen Litian: Ah, how old is he?

Investigator: Ah, 48.

Director Chen Litian: Did he have any surgeries?

Investigator: He had a stomach surgery—a gastric ulcer surgery, but a long time ago.

Director Chen Litian: Ah, then you come see me. You can't just make a phone call like this...uh, we definitely have what you want—we have the things (liver sources) you need for sure. But you have to come over first! If you do not come over and just make a phone call, it's impossible for me to give you what you want.

Investigator: Oh, I just need to confirm a few things.

Director Chen Litian: You, as a family member (of the patient), must come first. You have to come over first!

Investigator: I'll come first and bring you his files, so you can take a look at the set of hospital examination files...

Director Chen Litian: Yes, right.

Investigator: If he's suitable for the surgery after the assessment, what's the shortest time that he has to wait to get the surgery done? Can it be done within one week?

Director Chen Litian: For sure it can be done!

Investigator: For sure. Great, that's great.

Director Chen Litian: Ah, ah.

Investigator: I'm choosing the hospital with the shortest wait time. If all hospitals are equally quick, then I'll pick the one with the best skills.

Director Chen Litian: Then you must know I have done surgeries for so many patients. You must know—as another patient of mine recommended me—you must know the results I produced, right?

Investigator: Yes, right, I still need your help with one more thing.

Director Chen Litian: Go ahead, please.

Investigator: My former classmate told me that the quality of the liver is very important, and he asked me to...

Director Chen Litian: Of course, this is the most, most important thing, you can't just emphasize that your case is urgent. If it's so urgent, I can give you a seventy-year-old donor. Would you be okay with using his or her organ?

Investigator: That's right, what we want is...

Director Chen Litian: Do you get what I mean?

Investigator: Yes.

Director Chen Litian: You also need the quality guaranteed!

Investigator: Good, as you just mentioned, quality is the most important. I'm willing to pay a bit more, that's no problem. My family's finances are sound...

Director Chen Litian: Ah, sure!

Investigator: You know, my former classmate told me to ask for an organ from a Falun Gong practitioner, like the one he used previously. Is that available? Right now?

Director Chen Litian: You bring me the files, and I will take a look first, all right?

Investigator: Oh, sure.

Director Chen Litian: What you just said is nonsense! Who can use those of Falun Gong practitioners? We only use state-sanctioned—normally donated organs, and we don't use those of Falun Gong practitioners. I'm sorry about this situation, but we cannot find you that (type of donors), we cannot! So you can go find whoever you wish. Okay?

Investigator: My former classmate told me that he used...

Director Chen Litian: What your former classmate said is impossible! I've never used that kind (of organs). You are spouting nonsense—making things up! You are not really here for a surgery, are you?

Investigator: Then I'll bring you his files first. After reviewing them, you will...

Director Chen Litian: You may bring me the files for review, but if you are talking nonsense, go find someone else. I have no time to waste with you! If you really, truly have a family member who has cancer and needs the surgery, then you come see me as

soon as possible. We are a legitimate hospital and do not do those things! You've found the wrong place, okay?

Investigator: Please find me a good one, is that okay?

Director Chen Litian: Regarding this request, we can do it. But when will you come?

Investigator: When will be good for you? I...

Director Chen Litian: Where're you now?

Investigator: I'm currently at Taizhou—my hometown.

Director Chen Litian: You can come tomorrow, or later today!

Investigator: If I come, it will be tomorrow, and, well, I have to go to Ruijin Hospital, because I was told that he (another doctor) will be at the outpatient clinic tomorrow, which is Friday.

Director Chen Litian: Who are you meeting with? Which doctor's outpatient clinic are you going to?

Investigator: I was hoping to see Dr. Li Tao. It's Dr. Li Tao (on duty) tomorrow.

Director Chen Litian: Ah, ah, Li Tao, I know him, I know Li Tao.

Investigator: Yes.

Director Chen Litian: You bring me the patient's data, and I will take a look, all right?

Investigator: Of course, I will visit every hospital, and I will go wherever the surgery can be done the quickest. Then I just...

Director Chen Litian: I've already told you that you can visit wherever you want! If you want (to have the surgery done), you should come see me as soon as possible. I can get it (the surgery) done for you very soon if you come.

Investigator: Ah, yes, great.

Director Chen Litian: Oh, all right? And if you are looking for those of Falun Gong practitioners and you really want that, you can ask whoever you would like to! We do not have those donors; I have never heard of anyone donating Falun Gong people's organs in the entire country. You've got it all wrong!

Investigator: My former classmate told me that (his organ) was from a (Falun Gong) practitioner.

Director Chen Litian: Then your former classmate...is your former classmate a Falun Gong practitioner? Was his organ donated to another person?

Investigator: No...

Director Chen Litian: Was his liver excised by other people?

Investigator: It isn't that his liver was excised, but that he had the surgery done here, and you did the surgery for him.

Director Chen Litian: Ah, ah, we do not have any livers from Falun Gong (practitioners), we do not have those of people (Falun Gong practitioners). So stop spouting nonsense!

Investigator: But that's what he told me specifically.

Director Chen Litian: He was just making things up! Bullshit! Totally insane! None of us would use those from that kind of people. Throughout the entire People's Republican of China, the whole country, nationwide, nobody uses that kind of organs. He is totally nuts and out of his mind! Ah! Do you understand me?

Investigator: You can find me a top quality and young one then.

Director Chen Litian: Yes, that's right.

Investigator: The sooner you help me, the better. Then get the surgery done for me in one week, how is that?

Director Chen Litian: All right, so you come see me.

Investigator: All right, good, thank you so much!

Director Chen Litian: Ah, okay.
