

## 追查迫害法輪功國際組織（追查國際）

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

#### Investigation Recording 2019-094

**Date:** September 3, 2019 (+86-37166862192)

**Subject(s):** Doctor, Kidney Transplant, the First Affiliated Hospital, Zhengzhou University

#### Summary

1. We do lots of cases now, and have no beds available.
2. There are no beds available recently. So, don't come over yet!
3. It's just that relatively we have more kidney sources.
4. We do more cases, with relatively more patients here at our hospital.

#### Translation

Doctor: Hello?

Investigator: Hello, hello! Is this a kidney transplant doctor at the First Affiliated Hospital of Zhengzhou University?

Doctor: Ah, yes, Kidney Transplant. How can I help you?

Investigator: I'd like to ask (one question), my younger brother, currently at the People's Hospital, wants to have a kidney transplant, but is still waiting... Well, one of my friends told me that you're pretty good and fast, and have done quite a lot of cases at the First Affiliated Hospital of Zhengzhou University. Is it possible for him to be transferred to your hospital?

Doctor: Where was he admitted initially?

Investigator: At Zhengzhou People's Hospital.

Doctor: If he is to transfer over here, we can only rely on...well, he should wait until after he's discharged from his current hospital, right? I don't know much about the

details, either, but I think he can get transferred over here.

Investigator: Ah, he just wants to get transferred.

Doctor: But we recently... he'd better wait a couple days!

Investigator: Why?

Doctor: Because we have no beds available recently!

Investigator: There are no beds available, right?

Doctor: Right, we have no beds right now. So, just don't come over here yet!

Investigator: But if you had a bed available for him now, would you be able to get it done for him soon? Would the wait time be fairly short?

Doctor: Well, that's all...

Investigator: Because here's our situation: he's been waiting for a bed there too, because his case is urgent, we just wanted to get it done quickly. So, I'd like to ask if you can do it soon.

Doctor: That also depends on chances, on luck. Whoever gets a matched organ gets the opportunity to have the organ transplant.

Investigator: On luck?

Doctor: It's just that relatively we have more kidney sources.

Investigator: But over here at your hospital, there is no bed available for the time being, right?

Doctor: Right, right, right. If you have any questions, come over to consult with us, okay?

Investigator: How should we proceed now, to get on your waiting list first?

Doctor: Oh, come and get registered here, okay? If you'd like to consult with us, just come over, okay?

Investigator: Sure, sure, but which doctor should we go to? Which doctor?

Doctor: It would be fine to go to the doctor on duty.

Investigator: Oh, it's okay to just go find the doctor on duty.

Doctor: Yes, yes, you come here to find that doctor, and ask him directly about the kidney transplant... that's it.

Investigator: Can you recommend a doctor, a good one?

Doctor: Ah?

Investigator: Can you recommend a good doctor? Which doctor should I ask for?

Doctor: Our doctors are all good. It's fine for you to talk to the doctor on duty, okay?

Investigator: They're all good?

Doctor: Ah, ah, ah.

Investigator: So, you do a lot of cases, right? And with many patients, right?

Doctor: Ah, we do quite a lot of cases here, and have more patients relatively.

Investigator: If I come over, shall I bring his files directly, or along with the patient as well?

Doctor: Ah?

Investigator: Shall I bring the patient with me, or just his files for you to take a look first?

Doctor: It would be good if the patient can manage to come, okay?

Investigator: Oh, we'll see if he can come along then...now we can't get him admitted into the hospital, right?

Doctor: Oh, right, there is no bed available now.

Investigator: Oh, you do quite a lot of cases, with lots of patients as well.

Doctor: We do a little more cases.

Investigator: You also have quite a lot of patients in need of the transplants?

Doctor: Ah, yes.

Investigator: How many cases can you do in a year?

Doctor: Regarding that, you can come over here to our center for a consultation, okay? We can't communicate clearly on the phone.

Investigator: Oh, okay, sure.
