

**追查迫害法輪功國際組織（追查國際）**  
**World Organization to Investigate the Persecution of Falun Gong (WOIPFG)**

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

**Investigation Recording 2019-097**

**Date:** September 12, 2019 (+ 86-571-87236617)

**Subject(s):** Doctor Zheng, Liver Transplant, the First Affiliated Hospital, Zhejiang University School of Medicine

**Summary**

1. We do liver transplants.
2. Some got it (donor) in a week or two weeks, but some didn't get any even after two months.
3. We do more than 200 cases every year!
4. You can also come to him (Zheng Shusen), on Monday mornings.
5. All (doctors) in our hepatobiliary surgery division are good at it.

**Translation**

Doctor Zheng: Hello!

Investigator: Hello! Is this Zhejiang University, the First Affiliated Hospital of Zhejiang University? Someone just gave me this phone number, saying it is for your hospital office. I'd like to consult you. As my husband wants to go to your hospital for a liver transplant, does your hospital still do that now?

Doctor Zheng: Yes, we do.

Investigator: Yes, you do?

Doctor Zheng: Yes, we do.

Investigator: Well, all his files--everything is complete, so I just bring his files to you, or along with the patient as well?

Doctor Zheng: It's best to bring the patient with you.

Investigator: What about the wait for an organ? That is, what type could get it faster?

Doctor Zheng: What is his blood type?

Investigator: He is blood type B.

Doctor Zheng: I can't guarantee it. Well, because it's allocated nationwide, and I can't promise you anything!

Investigator: That is to say, if it's national allocation...

Doctor Zheng: Maybe you can get it (donor) in a week, or maybe you can't get one after a month.

Investigator: Ah, so it's the fastest *via* national allocation?

Doctor Zheng: The fastest? That is not for sure... Some got it (donor) in a week or two weeks, but some did not get any even after two months. It is hard to say!

Investigator: Then I would like to ask, Director Zheng...President Zheng, Zheng Shusen of your hospital, does he still do it?

Doctor Zheng: You can come and look for him.

Investigator: Yes, I am from Jilin Province.

Doctor Zheng: Ah, you are from Jilin Province. Then please come over, you'd better... It's best...what is the condition of the patient now?

Investigator: The patient is now, ah...

Doctor Zheng: Then you can come to the clinic.

Investigator: Yes. Because his...

Doctor Zheng: You can also come without him, just bring all his files here.

Investigator: All right. Well, then how many cases can you do every year at your hospital?

Doctor Zheng: More than 200 cases every year!

Investigator: More than 200 cases. Because my family members are also afraid, having been through a lot of pain with this disease, we are all afraid if the transplant fails, we'd lose both our family member and the money.

Doctor Zheng: I see.

Investigator: That means if lucky, it can be done in a week or two, right?

Doctor Zheng: Yes, that's right.

Investigator: Then I will... right...

Doctor Zheng: Come here first; come and consult a doctor. You can come and take a look.

Investigator: Okay, all right.

Doctor Zheng: The doctor would get a better idea of the case.

Investigator: The doctor would know better? Okay, so if I came, which doctor would I go to? Would you please refer one to me? Because Zheng Shusen must be too busy, right?

Doctor Zheng: No problem. You can also come to him, and you can do so on Monday mornings.

Investigator: What's your surname?

Doctor Zheng: Ah, my last name, my last name, my last name is Zheng, but I'm not a doctor.

Investigator: Ah, so you are not, you are not a doctor?

Doctor Zheng: No, I'm not a doctor.

Investigator: Ah, well, in addition to Doctor Zheng, Director Zheng, Zheng Shusen, are there any other surgeons who can do it really well?

Doctor Zheng: They are all good at it.

Investigator: All are good?

Doctor Zheng: All (doctors) in our hepatobiliary surgery division are good at it.

Investigator: Because they have done a lot and are very experienced?

Doctor Zheng: Yes, yes, right.

Investigator: Um, well, thank you, thank you!

Doctor Zheng: You're welcome.

Investigator: Thank you!

Doctor Zheng: It's okay, no problem.
