7. Investigator: Oh?
Doctor: This, who can assure you! Doing that is already changing your fate, what else can I do?

Translation

Investigator: Hello. Is this Kidney Transplant of Weifang People's Hospital?

Nurse: Yes, how can I help you?

Investigator: One of our family members needs a kidney transplant.

Nurse: Just one moment, I will find a doctor for you.

Investigator: Okay. Thank you!

Doctor: Hello! Greetings.

Investigator: Hi, how do you do, Doctor? Our family has a patient, who needs a kidney transplant. I'm looking for a few hospitals to join their waiting lists. Let me ask you a question. At your hospital, can a kidney transplant be done in a month, or two weeks?

Doctor: I cannot guarantee that. You must wait too. Some can find suitable ones, while some cannot.

Investigator: We must also wait! Are there cases in which the operations can be done in two weeks? Are there such cases at your hospital?

Doctor: I cannot guarantee that! There must be a suitable match. When there is a suitable one that matches your patient, it can be done, right? You can get registered first, and wait in line.

Investigator: Ah, so we should get registered. How should we...should we come to the clinic? And how can we get registered? Should we come looking for you? What's your name, Doctor? What's your last name?

Doctor: You can come directly tomorrow. My last name is Zhu. You can come tomorrow directly!

Investigator: Oh, your last name is Zhu. Doctor Zhu, greetings. What's your full name?

Doctor: You can look for Director Gao.

Investigator: We come to look for Director Gao?

Doctor: Yes.

Investigator: To look for Director Gao. You are Doctor Zhu. Director Gao...is he, Director Gao, a chief surgeon? Are you in the same team?

Doctor: Yes, he is the director of our team.

Investigator: Is Director Gao a chief surgeon?

Doctor: Yes, he is a chief surgeon.

Investigator: Then Director Gao's skills are okay, right? How many years of experience does he have?

Doctor: Ah, we've done a lot, already. Rest assured!

Investigator: Then how many can Director Gao do in a year?

Doctor: There's one of our patients, who has lived the longest postoperative life of 17 years, and someone who has even survived 20 years.

Investigator: You've had such a long history?

Doctor: They've all survived pretty well, no problems.

Investigator: Then Director Gao can do up to a hundred or more than a hundred a year, and has no problem with that, right?

Doctor: Ah, ah. In any case each year we do a lot. But I cannot guarantee that you can eventually get one if you wait for it. I cannot guarantee that. You cannot be sure if you will get one after you wait in line. How long is the wait time? That's all hard to say.

Investigator: Oh, Oh, then how many cases has Director Gao done this year?

Doctor: For those details, I cannot tell you the specific number. In any case, you just need to know that he's done a lot!

Investigator: He's done a lot?

Doctor: As you can see, some patients have had no problems for 20 years since the surgeries were performed. Why are you still hesitant?

Investigator: Ah, ah.

Doctor: Right now the beds are in hot demand. But for a transplant, it is a special illness. Transplant patients have priority. We have special rooms, special monitoring rooms, that are dedicated to transplants.

Investigator: You said the beds are in hot demand! You mentioned they're in hot demand! But they can be arranged with priority. There are also special rooms, special monitoring rooms.

Investigator: Doctor, I still have another question. This phone number...at your hospital, my classmate's friend's father had his transplant done at your hospital, four or five years ago! He used that Falun Gong kind. I also want that, is that possible? I can spend more money.

Doctor: Oh...Falun Gong!

Investigator: As I said, I also want that. I can pay more. Is that okay?

Doctor: You want that result, right?

Investigator: Yes, I also want that...a kidney donor of that type.

Doctor: Regarding that, we will definitely do a good job for you. It has nothing to do with how much money you spend.

Investigator: Ah, ah, anyway, for that kind, for sure there will be no problem. There must be that kind of donors available at your hospital, right?

Doctor: There must be what?

Investigator: Those donors of Falun Gong type. As they practice qigong, aren't they healthy?

Doctor: Regarding that stuff, you...you...you just stop talking about it!

Investigator: Well, if you can promise me that, I will surely come over. Yes!

Doctor: What can I promise you? I cannot promise you that!

Investigator: Ah, you cannot promise that?

Doctor: I cannot promise you that. I've already let you get pulled back once, right?

Investigator: Oh, oh?

Doctor: On that, who can assure you? Doing that is already changing your fate, what else can I do?

Investigator: Then okay. Then I will first come to get on the waiting list. Bring his medical records to get him on the waiting list, right?

Doctor: Ah, ah.

Investigator: Okay, okay.

Investigator: Okay. I will look for Director Gao. What is Director Gao's full name?

Doctor: Gao Yuan. It's Gao Yuan, Gao Yuan.

Investigator: Okay, then thank you, Doctor Zhu.

Doctor: Okay, okay.

Investigator: Thanks. Goodbye!
