Translation

Investigator: Hi, hello! Is this the kidney transplant inpatient service at...?

Nurse: Yes, may I help you?

Investigator: Hi, how are you! My last name is Li and I'm Li Yuang. The patient is one of my relatives. He took medical exams at Luoyang and was suggested to get the transplant surgery done as soon as possible. Because his health is getting worse.

Nurse: How old is he?

Investigator: He's 45 and has blood type B.

Nurse: We currently don't do transplants anymore, no such services.

Investigator: How come, why did this happen?

Nurse: Oh, because people say..., the first affiliated hospital..., Xijing, well, Xijing doesn't provide the service either.

Investigator: Did it pause at Xijing as well?

Nurse: Anyway, we are not allowed to perform surgeries here whatsoever.

Investigator: How come? Because I heard at Luoyang you guys are doing really well---skillful and your specialty is kidney transplants. So I was told...

Nurse: Yes, true, but that was before, now it's not allowed to perform any surgeries according to state regulations, as well as all military hospitals.

Investigator: Even military hospitals? You are, you are considered a military hospital, is that right?

Nurse: Yes, that's right.

Investigator: Ah, he mentioned kidney transplants, which suggested your hospital, that is what he told me. So...

Nurse: Performing surgeries isn't allowed, it was stopped last year.

Investigator: Ah? It stopped last year. Do you know which hospital still provides the service?

Nurse: The first affiliated hospital.

Investigator: Is that the first affiliated hospital---the first affiliated hospital to Xi'an Jiaotong University?

Nurse: Yes. That's right.

Investigator: Oh, how proficient are they there?

Nurse: They've performed many surgeries.

Investigator: Oh, they've done many. In that case, the surgery can be done quickly before at your hospital if lucky.

Nurse: It is not about luck, you need to have the tissue typing done.

Investigator: Yes. I know the tissue typing, as it was before at your place. Can this be done in a couple of weeks?

Nurse: Mhm...Oh.

Investigator: Oh, compared to the First Affiliated Hospital, do you think they've done more or...?

Nurse: They've done more, much more. You can call them.

Investigator: Ah, because he recommended your hospital and I didn't know you stopped the service, right?

Nurse: Mhm, we don't, that's right.

Investigator: Ah, really, not even a single surgery?

Nurse: Yes.

Investigator: Ah, why is that? With such skill, why not?

Nurse: The policy forbids.

Investigator: It's forbidden, oh, okay, alright, thank you! Alright, bye!

Nurse: Alright, bye.
