

追查迫害法輪功國際組織（追查國際）

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

Investigation Recording 2020-019

Date: March 6, 2020 (+86-37167967151)

Subject(s): Doctor, Thoracic Surgery, the First Affiliated Hospital, Zhengzhou University

Summary

1. It has not been done yet, because transplantation has not been used.
2. Chen Jingyu did a transplant for a COVID-19 patient, it was arranged by the state.
3. If you want to get such a lung transplant, you have to contact the hospital over there in Wuxi.

Translation

Investigator: Hi, how are you?

Doctor: Hello?

Investigator: Hi, greetings. Is this Transplant Program of the First Affiliated Hospital of Zhengzhou University?

Doctor: This is Thoracic Surgery.

Investigator: Oh, Thoracic Surgery. I'd like to know if Doctor Li Xiangyang is there. How can I find him, Li Xiangnan?

Doctor: Well, he is not here now. He works at East Division.

Investigator: Ah, well, I'd like to ask...let me ask you. Because I'd like to...someone in my family would like to go through an operation since he is infected with COVID-19.

Doctor: What kind of illness?

Investigator: COVID-19, because of the pandemic now, Wuhan pneumonia.

Doctor: He got infected with COVID-19?

Investigator: Yes, that new stuff.

Doctor: As a COVID-19 patient... you cannot see him. You have to go to the quarantined inpatient service.

Investigator: Go to the specialized quarantined inpatient service. So who is in charge of that service?

Doctor: Are you a COVID-19 patient or do you need a lung transplant?

Investigator: He got sick with COVID-19, and wants to get a lung transplant. His lungs have already changed color, you know? They changed color a little bit. That's not good.

Doctor: Transplants cannot be done for COVID-19 patients right now.

Investigator: They can be done. Look at those cases done in Zhejiang and Wuxi. Didn't they got it done there? I am far away from their places, but close to yours.

Doctor: Is that so? The lung transplants, they were not done for COVID-19 patients.

Investigator: Those, those things...

Doctor: COVID-19 patients must be treated symptomatically. Please call, please call 120, and ask to get transferred. Which emergency center do you want to go, which emergency place to go? Just call 120. You can ask them to transfer to that hospital.

Investigator: Ah. Call 120. Then I want to ask, you've never done (lung) transplants for COVID-19 patients during the pandemic?

Doctor: Transplantation is not used to treat COVID-19.

Investigator: Yes, have you, have you read the report? Haven't you read it? It's been everywhere in the news, such as China Youth Daily. It was the case done in Wuxi. Who did it in Wuxi Hospital? That was Doctor Han Weili, right? Another case was done at Zhejiang University, yes, it was Chen Jingyu. Yes, yes, yes, Chen Jingyu did it.

Doctor: (A male doctor's voice heard over the phone: Chen Jingyu, that was arranged by the state.) Our hospital hasn't done it as of now.

Investigator: Oh.

Doctor: We've never done such transplants for COVID-19 patients.

Investigator: Oh, there has been no such a case done at your hospital.

Doctor: If you want to get such a lung transplant, you have to contact the hospital over there in Wuxi.

Investigator: Good. Thank you. Bye.

Doctor: Bye.
