Translation

Investigator: Hi...

Doctor: Please bring the files to the clinic.

Investigator: So who shall I look for at the clinic? Which doctor shall I make an appointment with?

Doctor: You can make an appointment with any of the doctors for Thursday or Friday. Either Thursday or Friday would work for their group, okay?

Investigator: Speaking of that group, as I just called them for an inquiry, the young lady at the nurses' station recommended Director Chen, Chen Jianxiong.

Doctor: Okay.

Investigator: Monday?

Doctor: Thursday or Friday is also fine. It does not matter. You can come any day, okay? Whoever you meet would work for you, okay?

Investigator: Well, are you a doctor who does the operations?

Doctor: Yes!

Investigator: Ah, so are you on duty on Thursdays or Fridays?

Doctor: It does not matter. Just come, just come directly. Every day we have different people there, okay?

Investigator: There are different people there.

Doctor: They're all from our program, and are all fine, yeah.

Investigator: Ah, so if we go there, should we bring our test reports, along with my husband to get hospitalized together?

Doctor: Please come and let us take a look, take a look at his case first. We'll go from there, okay?

Investigator: Oh, well....

Doctor: After we make an assessment on him, if he needs admission into the hospital, they will arrange it for him.

Investigator: Well, as you just said, if we come to your hospital, shall I bring my husband together, or just bring the reports first? Because I am now....

Doctor: Please bring the reports over first.

Investigator: First I...

Doctor: From what you see...yeah, how is his condition now? How is his daily activity level?

Investigator: Because right now....

Doctor: If he can move around easily, you can bring him together. If he now is like those who have difficulties walking around, then you can bring the reports over by yourself. That'd be fine. Okay.

Investigator: Since the end of last year, over this period, he's got worse, and hasn't been so well recently.

Doctor: Then, you just bring the reports over first.

Investigator: Ah.

Doctor: Please bring the reports over first, okay?

Investigator: Ah, well, I have another question for you here. That is, if we go through the whole procedure, how much money is needed roughly?

Doctor: Let's discuss about it when you come, okay?

Investigator: Oh...

Doctor: Because different patients' conditions are different. It depends on the patient's condition. It's not that simple. This matter we will know once we take a look. Okay. You have to bring his files over, so that we will see what's exactly going on with him. We have no idea right now, and cannot discuss that with you over the phone.

Investigator: Right. Because we, we do not have any medical insurance, it must be a large sum for us. So how much would be the cost roughly?

Doctor: That's hard to say.

Investigator: Hundreds of thousands yuan?

Doctor: Please bring his files over for us to take a look first, okay?

Investigator: Oh, well, may I have your last name, Doctor?

Doctor: Ah, just bring them over. Okay.

Investigator: Oh, I don't know how to address you. So shall I just look for you?

Doctor: Please come directly to the clinic, Clinic Room 23 on the third floor, and make an appointment to see a doctor there. You can tell him, you've already told us that he needs a liver transplant. Okay. If we keep talking over the phone now, it'd take us nowhere, okay? (Investigator: Is that so?) Please bring the files over. Okay. I am too busy here. You can bring them over and make an appointment at the clinic directly, okay? Yeah.

Investigator: Doctor, I'm...because of such a big...

Doctor: I am sorry. I don't have the time. You can come over on a week day, or whenever it's convenient for you, just bring the files to the clinic, Clinic Room 23 on the third floor, okay? We will discuss the details later! Okay?

Investigator: Well, I'd like to know if...
