

追查迫害法輪功國際組織 (追查國際)

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Investigation Recording 2016

Date: January 28, 2016 (86-13701811021)

Subject(s): Doctor Huang Xiaowu, Liver Transplant, Zhongshan Hospital, Fudan University

Summary

- 1.If the patient has blood type B, the waiting time may be two months. It can be as quick as one or two months.
2. As long as there are donors, we can do it. We have done more than ten cases this year.

Translation

Investigator: Hello, is this Doctor Huang Xiaowu?

Huang: Yes.

Investigator: I'm a patient's relative. I would like to check if you still do liver transplantations? I'm from Changzhou.

Huang: Changzhou?

Investigator: Yes. Do you still do it? If so, I can go over there.

Huang: Where are you calling from?

Investigator: From Changzhou. I'm using online telephone. You can also use it. It is free.

Huang: You can come to my clinic.

Investigator: I want to consult you first. If you can do it, then I will go over there. Otherwise, I go over there for nothing.

Huang: Where did you get my phone number?

Investigator: From a friend who might be a patient of yours in the past. He gave me a phone number indirectly. Zhongshan Hospital did quite a lot of transplantations in the past... Since I was looking for a liver transplantation doctor, he gave me your phone number that he got somewhere.

Huang: Okay, yes, we do that. Bring the patient's information to my clinic and let me take a look.

Investigator: Ah, you can do it. Your hospital can do it now?

Huang: Yes.

Investigator: How long do we need to wait?

Huang: What is the patient's blood type?

Investigator: Blood type B.

Huang: If it is blood type B, then he'll need to wait for some time.

Investigator: For how long?

Huang: **Maybe two months. It can be as quick as one or two months.**

Investigator: Can be as quick as one or two months? Have you performed any transplantations after the New Year Day?

Huang: Of course. This year we did about... (not clear)

Investigator: Oh, so you started doing it for 2016?

Huang: **As long as there are donors, we can do it.**

Investigator: Ah?

Huang: As long as there are donors, we can do it.

Investigator: Okay. How many cases have you done for 2016?

Huang: More than ten cases.

Investigator: More than ten cases. That's good. That means your hospital does more

transplants than other hospitals. If you do a lot, I can go over there, because the waiting time would be shorter, right?

Huang: Right.

Investigator: Okay, thank you. I'll be in touch if I decide to go. Thank you!

Huang: Sure.
