

Investigation Recording 57

Date: April 10, 2018 (+86-37167077512))

Subject(s): Nurse, Organ Transplant Program, Zhengzhou People's Hospital

Summary

1. There were over 200 kidney transplants last year.
2. There should be 60 to 70 liver transplants last year.
3. The expense of liver (transplant) is around 500,000 if everything goes well without any other complications or anything like that.
4. We have fewer liver transplant units and more kidney transplant units, so the beds are pretty tight.
5. We have over 70 beds for Post-transplant General Practice.
6. Please contact Director Miao Qingshan.

(Automated attendant: Hi, Organ Transplant Program at Zhengzhou People's Hospital, just a second...)

Nurse: Hi, how are you?

Investigator: Hello. I'm calling from out of town. Could you hear me well?

Nurse: Yes, please go ahead.

Investigator: Do you still have the qualification of liver transplant? Could we make registration for liver transplant?

Nurse: Liver transplant?

Investigator: Yeah.

Nurse: Are you calling for consultation for yourself or recommended by someone?

Investigator: Recommendation, that's right. It's someone who got the surgery at your place before.

Nurse: Uh. Is the person in your family?

Investigator: It's a relative.

Nurse: Uh, is it immediate family member?

Investigator: No. Because I know a little bit more about medical science, so I'm calling.

Nurse: You want to get consultation for him, right?

Investigator: Right, right. So my first question is, by and large, you said the cost is not very easy to estimate here, right?

Nurse: It's about, the cost is about 500,000 or so.

Investigator: Oh, around 500,000.

Nurse: Yeah, if everything goes well without any other complications or anything like that.

Investigator: Uh, another question, if he comes here, could he get hospitalized anytime?

追查迫害法轮功国际组织

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Nurse: I suggest you consult with our director in advance if you come here.

Investigator: Director Miao? It's still him, right?

Nurse: Yes.

Investigator: Oh. You seem to have liver and kidney transplants together, right?

Nurse: Yes.

Investigator: So you also have kidney transplant patients. Maybe you have fewer liver transplant patients? Mainly kidney transplant?

Nurse: We have fewer liver transplant units and more kidney transplant units, so the beds are pretty tight.

Investigator: All right. How many beds do you have in the organ transplant center? Are there 50 (beds)?

Nurse: We have over 70 (beds) for Post-transplant General Practice.

Investigator: Hey. How many liver transplant did you do last year, in 2017?

Nurse: There should be 60 to 70 liver transplants last year.

Investigator: Oh. Are there 100 to 200 kidney transplants? How many kidney transplants do you do?

Nurse: There must be kidney transplants. There're a lot of kidney transplants.

Investigator: For kidney transplant, so you meant there are more than 100 or 200 \cases?

Nurse: Yeah.

Investigator: Oh. So Your main focus is on kidney transplant.

Nurse: Because we have few liver transplant units. It can't accommodate too many patients at the same time.

Investigator: Oh. Were the liver transplants in Henan mainly conducted at The First Affiliated Hospital of Zhengzhou University?

Nurse: There are more wards in their hospital.

Investigator: More wards, but their expense is also higher than yours.

Nurse: Right. We are, after all, at different levels, one provincial and one municipal. Charges are not the same.

Investigator:.. All right then. Are your kidney transplants over 200 cases last year?

Nurse: Certainly more than that.

Investigator:.. More than that. Then your cases are not less than The First Affiliated Hospital of Zhengzhou University.

Nurse: Uh.

Investigator: I'll check my relative here and pass these information. See how to touch base with you.

Nurse: Uh. Sure.

Investigator: Take care.
