Xie Jinliang 's daughter: Oh no, no, I'm his daughter

Investigator: Daughter, oh sorry, I'm sorry I don't know, but isn't your father here?

On Xie Jinliang 's daughter: He's here, he's driving, wait a minute, wait a minute

Investigator: Oh well, drive, then you in a moment, I'll call you later

On Xie Jinliang 's daughter: Hey, hey, (Investigator: Hello) It's okay, we can talk

Investigator: Hey, Director Xie, hello, hello, that I am a family member of a patient, that I have a nephew who wants to do a kidney transplant, can you still do it now?

On Xie Jinliang 's daughter: Can do (Investigator: Can do, wow, great) Who are you?

Investigator: Hey, I am a family member of a patient, a family member of a patient

On Xie Jinliang 's daughter: oh

Investigator: Because I called your hospital, they said, they told me that you were the director, um, then I want to ask you; (the other person responded) Then I want to ask you, I will register and queue at your place, then how long will it take

On Xie Jinliang 's daughter:---Not able to hear 1:25

On Xie Jinliang 's daughter: do you match the blood type?

Investigator: No, I will come, I will come to you to find, he does not have source.

On Xie Jinliang 's daughter: Haven't done blood test? No blood test, right? (Investigator: Ah) That means you have to do blood test first, and then we will help you find the source (Investigator: Yes, yes, yes, yes, yes) Then when is convenient for you to come here first? Test, and then I will give you the next step

Investigator: Let's just say, let's just say that I want to ask if you are still doing it now, then I can go there, otherwise there is no point in going there.

On Xie Jinliang 's daughter: Do, Do, I cannot hear you --- 2:32

Investigator: If I finish blood testing, I will wait for how long?

On Xie Jinliang 's daughter: It's hard to say, because it depends on whether there's matching kidney source, and then see if there is a kidney source - 2:52 - I can't hear you

Investigator: Let's just say that our hospital has started to do it in 2016.

On Xie Jinliang 's daughter: Start, start early, it will not be divided, not divided into every year, it is, if there is this opportunity, if there is a kidney source, then immediately---

Investigator: Well, this is because some hospitals, their doctors told me that you go to a few hospitals and queue up a few more lines. If this hospital does more, you will just wait for the opportunity, and have the opportunity faster.

On Xie Jinliang 's daughter: Ah, resources, resources, this Xiangya Hospital has already done this and has already done 20 cases.

Investigator: If there is hope, then I will go to your place to line up as soon as possible. Some hospitals do not do as much as you do. I asked a few hospitals.

On Xie Jinliang 's daughter: Yes, yes, you, resources, there is no long waiting queue. It means that after you have been matched, if there is a kidney source, more than enough kidney sources, there is a chance, if you are successfully matched, if all aspects are matched? You can do it right away. That is to say, you don't have to queue up too much. If there is a kidney source and you have this opportunity, you can arrange the surgery immediately.

Investigator: Oh that's great, that's great, then you think you have opportunity here; can you tell me the price?

On Xie Jinliang 's daughter: Yes, that is to arrange for your patient to come and do the matching as soon as possible, and then let us know the data, and then help you find a kidney source to see if there is a source, and if there is a chance, we can immediately arrange surgery for you

Investigator: Oh, that's great. Can you tell me the price?

On Xie Jinliang 's daughter: Price? 300,000 or so

Investigator: Oh, 300,000, then I know, then I know, that is, you have done 20 cases this year, that's still okay, that's a lot

On Xie Jinliang 's daughter: Yes, yes, it doesn't exist, it means queuing up, or something. For this thing, if there is an operation, as long as there is an opportunity, there is a kidney source, and if there is a source, the operation can be arranged immediately

Investigator: Oh that's great, then thank you; ah, I'm sorry you drive, maybe, pay attention to safety

On Xie Jinliang 's daughter: It doesn't matter because my father may speak Mandarin and it may be inconvenient for you to communicate with each other. Then you can communicate. I just help you communicate.
