3. The fee is about 500,000 yuan for liver transplantation.

Phone Investigation Recording

Nurse: Hello.

Investigator: Hello, how are you? I am calling from Changzhou, Changzhou, Jiangsu. I have a family member who wants to do liver transplantation. I would like to ask if our provincial hospital is still doing liver transplantation?

Nurse: Yes, we do, we do! We are doing it! Just come over and make an appointment, you just come and make an appointment with a director, and then get a checkup.

Investigator: Oh, my question is, how long does it take to wait for a liver transplant? if we go there now?

Nurse: Well, the waiting time can be long or short, it depends~ I probably can't tell you exactly how long the waiting time would be.

Investigator: If you can do it, we will go back to the provincial hospital to do it, (we prefer) a relatively large hospital to do it. So I just want to get some general information. His blood type is type B, that is to say, under current situation, if I go back now, can I get it done by the end of the year?

Nurse: Then you have to bring his records of medical history. It won't be that clear just with a phone call!

Investigator: So many hospitals in Shanghai and Jiangsu are doing liver transplants, but I think the provincial hospital should be doing well and doing more. Has your hospital done a lot this year? So far this year?

Nurse: Have done a lot, done a lot, hey.

Investigator: Oh, can you tell in one year, as many other hospitals claimed ~, just say how many our hospital has done this year? So I know what to expect~

Nurse: Have done a lot, but it is definitely not convenient to tell you the specific figures! ~

Investigator: Probably more than last year?

Nurse: Right, that's right, for sure! There must be that every year is more!

Investigator: I understand. How about last year? If you can't tell me the number in this year, how many did you do last year? You tell me, I know what to expect.

Nurse: No, no, I don't think this is the scope of your concern, and if you want to ask me this number, I definitely can't tell you! Alas~

Investigator: Oh, can't tell me, okay, as long as you have done a lot. Done a lot, right?

Nurse: That's right.

Investigator: Are there many people in waiting now? I mean, are there many patients in waiting now?

Nurse: A lot people are in waiting as well.

Investigator: A lot too! That is, if more patients are in waiting, I think there may be some hope, that is, at least it can be faster, right?

Nurse: Well, right!

Investigator: Can you tell me the approximate price, the price?

Nurse: About 500,000 yuan for liver transplantation!

Investigator: About 500,000 yuan, oh, that's okay, that's good, can I come to you for help? What is your last name?

Nurse: It is useless for you to see me because I am not a doctor. We have many directors who do liver transplantation. You can look it up online, you can take a look, and then make an appointment with one of directors.

Investigator: Which director do you think is better?

Nurse: You can check it out. Can you call after you check it out? You're sure... If not sure, you can look for Academician Wang and make an appointment with Academician Wang, available each Monday morning.

Investigator: Academician Wang, okay, okay, thank you!

Nurse: Okay, you are welcome.
