

A nurse from Transplant Ward, Changhai Hospital Affiliated to Second Military Medical University

July 1st, 2017, 10:21:23 (Phone # 86-2131162866)

Nurse: We do more than 300 kidney transplants a year. We do both liver and kidney transplants (no qualification for liver transplantation). Many liver transplants are done every year, at least 50. Zhu Youhua does kidney transplant, and Li Qigen does liver transplant. There are 4 professors in Kidney transplant.

Summary

1. Zhu Youhua is doing kidney transplants here.
2. We do ~, about three hundred a year (kidney transplant).
3. We do both liver and kidney, do both.
4. Many liver transplants are done a year, at least 50.
5. Professor Li Qigen is the only one doing liver transplant.

Contents of the investigation recording

Nurse: Speaking Please.

Investigator: Are you the transplant department of Changhai Hospital? The Transplant Department of Changhai Hospital, right? That~ uh~

Nurse: Hey, where are you calling from?

Investigator: Is that Zhu Youhua doing kidney transplants in this hospital now?

Nurse: That's right.

Investigator: Oh, that means right now he is working in this hospital, not going to Changzheng Hospital?

Nurse: Hmm, not going there.

Investigator: Oh, let's say, because he is quite famous in doing kidney transplants, so do you do a lot of kidney transplants? I have a family member want to do it now.

Nurse: Then you come to visit the outpatient clinic.

Investigator: Are we doing a lot now? Waiting in line, if I go to wait, uh, if there are many people, I have to wait for a long time. Let's say, can we have it done within this year?

追查迫害法轮功国际组织

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Nurse: Hey~

Investigator: Have you done a lot this year?

Nurse: We do, about 300 cases a year.

Investigator: Oh, so how many have you done this year, so far?

Nurse: I don't know about this, but we've done a lot anyway.

Investigator: Oh, you have done a lot, that is, last year you said you did more than 300 cases, right?

Nurse: Yes. If you want to come and do it, you can go to visit Dr. Zhu (Zhu Youhua)'s outpatient clinic, okay.

Investigator: Would you let me know which day of the week?

Nurse: Monday.

Investigator: Oh, Monday, just say, what about liver transplants

Nurse: That's right.

Investigator: I have a friend, by the way, he wants me to ask, he went to the Oriental Hepatobiliary Surgery Department to do liver transplant, but they are not doing it there. It seems Changzheng (hospital) is not doing it either. It's your hospital that is doing a liver transplant, right?

Nurse: I just hope you can come and have a look. After you see the doctor, you can decide whether to do it or not. then the doctors here can tell you when to do it. You have to wait, okay?

Investigator: That's not what I meant. I am asking, a friend of mine likes to know, whether liver transplant is also available now.

Nurse: We do liver and kidney transplants, do both.

Investigator: That is to say that your transplant center does liver transplants as well, right?

Nurse: That's right.

Investigator: Have we done a lot of liver transplants now? How many cases can you do in a year?

Nurse: Quite a few.

Investigator: Quite a few, a few hundred, as well?

Nurse: Not a few hundred.

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Investigator: Approximately, just a rough number is fine, so I will tell him, if this is the case, he can consider coming back

Nurse: About 50 a year, at least 50.

Investigator: Oh, you mainly focus on kidney transplantation, not liver transplantation, right?

Nurse: Because of the small number of beds, there are only 4, 5, eh, 6 beds. So it's less.

Investigator: Have you started doing it this year?

Nurse: Because one professor does it, because there is only one professor. You know, there are liver transplants, just fewer cases, of liver transplants, okay.

Investigator: Did you say that only one professor is doing liver transplant?

Nurse: Yeah.

Investigator: Oh, then which professor you mentioned, I'll tell him so that he can look for it once he has a chance.

Nurse: The surname is Li

Investigator: Is it Li Qigen?

Nurse: Just say, you can just say Professor Li, okay?

Investigator: Professor Li Qigen, is that him?

Nurse: Ehm.

Investigator: That's fine, thank you, nurse.

Nurse: Well, you are welcome.

Investigator: Goodbye. Thanks.
