## **A doctor from Transplant Ward, Changhai Hospital Affiliated to Second Military Medical University**

July 10, 2017, 9:54:27 (Phone # 86-2131162862)

### **Summary**

1. It is the same all over the world, that there is no guarantee that all donors are healthy. In another word, all donors are healthy to pass inspection, but there is no guarantee that they are actually healthy.
2. This year (kidney transplant) has exceeded 100 cases.
3. We also do liver transplants, and we even do heart transplants!
4. About 60 to 100 cases of liver transplant each year

### **Contents of the investigation recording**

Investigator: Hello, is this the Changhai Hospital? Hey, how are you?

Doctor: Yeah.

Investigator: Are you a doctor, hello, how are you? That I, would like to ask if your hospital still does kidney transplant?

Doctor: We do.

Investigator: Oh, you do, oh, that's great. I have a patient who wants to do a kidney transplant. If he goes there, how long will it take to get it done?

Doctor: Hey~, I can't answer this question. You'd better to let him come to the outpatient clinic to check his condition.

Investigator: Ah, let's say you do, are you doing a lot now?

Doctor: Well, quite a lot has been done.

Investigator: Well, doctor, I think, what he, is kind of, er, his concerns are, one thing is how long to wait for a doctor; the other is that, whether your donors are all healthy, that is to say, should be no problem after transplant, right?

Doctor: Well, it's the same all over the world, there's no guarantee that all donors are healthy, that is, um, or in another word, all donors are healthy to pass inspection, but there's no guarantee that they're actually healthy.

Investigator: Oh, oh, I see. In that case what is the situation of this kind of donors?

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

---

Doctor: I'm not with it. I don't have time now!

Investigator: Oh, oh, let me ask you one more thing, someone said that your hospital does a lot. Has your hospital done a lot this year? Let's say, how many cases have been done this year?

Doctor: We have done more than 100 cases this year.

Investigator: How about this, if he decides to come back, I'll contact you, what's your name? Can I get in touch with you?

Doctor: You just come to ask for Professor Zhu!

Investigator: Ask for Professor Zhu

Doctor: Okay, aren't you here because of his name?

Investigator: Oh, that's fine, that's fine, that's fine. As I'm also a doctor, by the way to ask, does your hospital only do kidney transplants, right?, not liver transplants, huh?

Doctor: We do as well.

Investigator: You do as well, also do a lot of liver transplants?

Doctor: That's right. We even do heart transplants.

Investigator: Oh, like this liver transplant, how many of these liver transplants are done in your hospital per year?

Doctor: About 60 to 100 cases.

Investigator: That's fine, then I can also introduce my patients here. Because I thought Changhai Hospital only does kidney transplants but not liver transplants. Okay then, I won't bother you anymore, thank you for your time. Thank you. Okay, goodbye!

Doctor: Okay.
