

## Investigation Recording 2020-030

**Date:** March 10, 2023 (Telephone: +86-13756661292)

**Subject(s):** Professor Guangyi WANG, Director, Liver Transplantation Center of the First Hospital of Jilin University

### Summary

1. It may take one or two months to schedule a surgery. However, we are that, that is...um because (we're) the only Organ Procurement Organization (OPO) in Jilin Province, so the queue might move a little faster (here) compared with the rest of the country.
2. In the past few years during the pandemic, (we) did not stop (doing transplants), (we) didn't stop. Last year, (we) performed more than 120 (transplant surgeries).

### Translation

Guangyi WANG: Hello! Hello!

Investigator: Well, is this Professor Guangyi WANG from the Transplantation Department of the First Affiliated Hospital of Jilin University?

Guangyi WANG: Yes.

Investigator: Hello! I am calling today to ask Professor Wang for help! I have a patient who has a relative, he is in Jilin city, suffering from hepatitis B with advanced liver cirrhosis and needs liver transplant. I want to see if your hospital can arrange it now, or if you haven't been doing, have you been doing liver transplantation or have you not? He (the patient) is B blood type, 45 years old.

Guangyi WANG: Ok, ok.

Investigator: Now he developed moderate ascites, so if based on the evaluations (of his condition) that he is an appropriate candidate for surgery, how long does he have to wait for his surgery, ah?

Guangyi WANG: Probably according to (?) One or two months, but we are that, that is...um because (we're) the only Organ Procurement Organization (OPO) in Jilin Province, so the queue might move a little faster (here) compared with the rest of the country.

Investigator: Ah.

Guangyi WANG: Right.

Investigator: So, about the organs, are they harvested at your hospital and transplanted right way? Or are they procured from elsewhere?

Guangyi WANG: Well, within Jilin Province.

Investigator: Jilin, Jilin Province, um good.

Guangyi WANG: Yes, yes, um.

Investigator: Also, that now you, because of the pandemic for the past few years, you've been doing transplants, and you haven't stopped doing them, right?

Guangyi WANG: (We) did not stop, did not stop. Last year (we) did more than 120 cases.
