

## Investigation Recording 2020-032

**Date:** March 10, 2023 (+86 13883299828)

**Subject(s):** Professor Liu Hongming, Department of Hepatobiliary Surgery, Daping Hospital, Third Military Medical University

### Summary

1. I attend the specialist clinic every Wednesday.
2. Regarding the liver source, we have done a lot recently.
3. The waiting time may still be two months.
4. We generally source livers from our hospital.
5. There are only four hospitals in Chongqing that can do it: the First and Second Affiliated Hospitals of Chongqing Medical University, Southwest Hospital, and Daping Hospital.

### Translation

Doctor: Hello?

Investigator: Is this Professor Liu Hongming from the Department of Hepatobiliary Surgery at the Daping Hospital of the Third Military Medical University?

Doctor: Hey, yes, yes, yes.

Investigator: I called you today to ask for your help. I have a relative...

Doctor: ah

Investigator: (He has)hepatic cirrhosis with advanced hepatitis B and needs liver transplantation, and he lives in ...

Doctor: oh oh

Investigator: It is near Daping.

Doctor: ah

Investigator: Can liver transplantation be performed in your place?

Doctor: Yes, you ask him to contact me. Has he registered? Has he registered?

Investigator: He has registered. I'd like to know when you attend the outpatient clinic?

Doctor: I attend the specialist clinic every Wednesday, every Wednesday.

Investigator: Ah, I just wanted to ask, if an examination and evaluation shows that a surgery can be performed, how long do you take to arrange a surgery?

Doctor: It depends on liver source availability. We have done a lot recently, but we don't know when the next one will be. We can report it to OPO, okay.

Investigator: How long will it take approximately?

Doctor: We'll have to see his blood type and so on, blood type and score.

Investigator: The blood type is...he is B blood type, 45 years old.

追查迫害法轮功国际组织

**World Organization to Investigate the Persecution of Falun Gong**

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

---

Doctor: Oh, we have to... have to... have to give him a score, we have to grade him, yes.

Investigator: That's right, I meant to ask, with such a case—type B blood, generally how long will take?

Doctor: It may still take two...two months, um.

Investigator: Two months?

Doctor: 2 months. Two months, to see if there is any hope?

Investigator: The second question is, about your liver souse, do you source organs in the hospital and do transplant surgery simultaneously? Or you have the organ harvested from outside and bring it back? Generally?

Doctor: No, we generally source our organs in our own hospital.

Investigator: Now...in the past few years, the liver... isn't this impacted by the pandemic, has your hospital has been doing liver... liver transplants for the past few years? have you ever stopped?

Doctor: We haven't stopped, but the number...the number is not large. The First Affiliated Hospital and the Second Affiliated Hospital of Chongqing Medical University have done a little more, and there are only four hospitals in Chongqing that can do it. You'd better make your registration.

Investigator: You were saying you can do it (it's not audible here), Southwest Hospital does it, Secondary Affiliated Hospital does it, where else can do it?

Doctor: There is also the First Affiliated Hospital, four hospitals do it, including the First and Second Affiliated Hospitals of Chongqing Medical University, Southwest Hospital, and Daping Hospital.

Investigator: Ah, you mean the First Affiliated Hospital and the Second Affiliated Hospital of Chongqing Medical University, right?

Doctor: Yes, yes, yes, yes, yes, yes, yes.

Investigator: ah

Doctor: hey hey

Investigator: ah

Doctor: All right, all right, all right.

Investigator: Thank you.
