Translation

Yi Yongxiang: Hello.

Investigator: Hi, hello. Is this president Yi Yongxiang of the Second Hospital of Nanjing? How are you?

Yi Yongxiang: Who's...

Investigator: This call is.....this call is for my relative in Nanjing. He'd like to come over your hospital for liver transplant. I was wondering if you still do that. Ah, could you arrange that?

Yi Yongxiang: Ah, you.... have him....have him....have him contact me. Um.

Investigator: As you see....which day is more convenient?

Yi Yongxiang: You....have him come to Nanjing Drum Tower Hospital on Thursday. Have him come to my outpatient clinic at Drum Tower Hospital. Which blood type is he?

Investigator: Yeah, he is type B, 45 years old.

Yi Yongxiang: Right, type B is less while type A and O is more relatively.

Investigator: Oh~ so if the assessment is okay for such type B, as you see how long could you schedule it?

Yi Yongxiang: It's hard to say. I need to check up your condition by then.

Investigator: How long does it generally take for the assessment? To get the medical report?

Yi Yongxiang: The assessment isdone while waiting.

Investigator: Yeah, I mean, how long does it take?

Yi Yongxiang: This...this is pretty fast, this is pretty fast.

Investigator: Can children's organs be used for adults? Upon my inquiry, some hospitals can also provide....may provide children's organs.

追查迫害法轮功国际组织

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Yi Yongxiang: For children's organ, it depends on how old the children are.

Investigator: It won't work for the children who are too young, right?

Yi Yongxiang: Right. There's also the parental transplant which is donated from the family members.

Investigator: Ah, one question about this. As you see, the patient needs to take this anti-rejection drugs after surgery, the immunosuppressants. About the infections from the new corona virus, do you think how patient can get protection after surgery?

Yi Yongxiang: He is not... he is not infected with the new corona virus. He can't undergo the surgery definitely during the infection.

Investigator: Ah, it can't be done during infection.

Yi Yongxiang: You have him go...go to that, have him go to the outpatient clinic first. Uh.

Investigator: Oh, that's fine. How long is there a possible matching donor?

Yi Yongxiang: That's pretty fast. There's emergent liver transplant. Some people make it in one to two days.

Investigator: Oh, make it in one to two days, uh?

Yi Yongxiang: Ah...right.

Investigator: Ah, all right then. Thank you so much.

Yi Yongxiang: Sure. No problem. All right.
