February 23, 2023 (Telephone No.: +86 15000596988)

Investigation Summary:

1. Waiting time for a Liver transplant can be as short as 2 weeks.
2. Most of the organs come from sources outside the hospital, with majorities of them being in Wuhan city, Sichuan province, where the (Wuhan Union Medical College) hospital is located at and as a designated beneficiary of organ allocations in Sichuan. (The short traveling time from the location of organ procurement to liver transplantation) can ensure a short cold ischemia time.
3. The cost of liver transplantation is 500,000 to 600,000 yuan.

Investigator: Hello!

Jingyang GU: Hello, and who is this?

Investigator: Hello! You are Director Jinyang Gu of the Liver Transplantation Department of Shanghai Jiaotong University Xinhua Hospital, right?

Jingyang GU: Oh hi, hello! And who am I speaking to?

Investigator: Well, I am calling from Beijing.

Jingyang GU: Oh hello!

Investigator: I have a relative in Shanghai. He has B blood type, is 45 years old, has cirrhosis of the liver, and needs a liver transplant. I just want to ask if your hospital can do it, can you?

Jingyang GU: Well, I am now working in Wuhan Union Medical College Hospital.

Investigator: Oh, you are in Wuhan Union Medical College Hospital now, right?

Jingyang GU: Yes, yes, I am now, I have been transferred to Wuhan Union Medical College Hospital, that's right.

Investigator: Wuhan Union Medical College Hospital is also very good.

Jingyang GU: That's right, yes yes, seventh (best) in the country, right, right.

Investigator: So, it is also well-known throughout the country. In that case, you see, he (my relative) wants to have (the transplant) done quickly, so how long will it take for you to arrange for it?

Jingyang GU: (I'll) try to (make it happen) in half a month, is that okay?

Investigator: Half a month, that would be great! Now here is this, your organs, are they usually procured in this hospital? Then having them transplanted right away? Or are they removed elsewhere from sources outside the hospital?

Jingyang GU: Well, all the above, all kinds of situations-most of them are procured elsewhere from sources outside our hospital-basically from the same province, the same province, (even) the same city, within the same city-where the procured organs are allowed to be distributed to our hospital, so organ ischemic time is very short, okay?

Investigator: Don't you do the ischemia-free transplantation?

Jingyang GU: No need to do it, no need to do it, no need, no need, alright.

Investigator: How much does it cost for a liver transplant?

Jingyang GU: Five or six hundred thousand.

Investigator: My relative's family runs a business, and their financial situation is very good. It doesn't matter if it costs more money. The key is, can you find the organs from someone who is a younger and healthier?
