Investigator: Hi, how are you? Is this... Is this Director Fu Zhiren of Liver Transplant Program at Shanghai Changzheng Hospital? Is this Professor Fu?

Fu Zhiren: Uh, yes, speaking.

Investigator: Uh, hi. This call is from Beijing. I'm... I'm calling to ask Director Fu for help. I have a relative here in Shanghai who is going to have the liver transplant.

Fu Zhiren: Uh.

Investigator: He's blood type O, 45 years old. Now the assessments are okay in all aspects, and it says that it can be done. The disease is quite urgent and I want to do it earlier, so I was wondering when you could arrange it there.

Fu Zhiren: Uh. It's like this. Uh, it needs to come over here for evaluation. We...we've got to examine the patient to assess whether he is suitable for transplant. This must be evaluated.

Investigator: Right. He's done a comprehensive examination in Zhongshan Hospital. It said it's ok to do, but there was no liver source over there.

Fu Zhiren: I see. I see. You actually already wait at Zhongshan Hospital now, right?

Investigator: Yes.

Fu Zhiren: So if you go to to our system, if you go to our system, you can also wait here. Go whichever way is faster. Ah yeah.

Investigator: I'm thinking about the assessment in all aspects now...

Fu Zhiren: All right. All right. That also requires to go into our system to register. We have to submit some data for this to work.

Investigator: Right. That is, if we wait over your place and all assessments are ok, how long will it take to schedule the surgery?

Fu Zhiren: Ouch, it's sometimes hard to say. Let's... Let's do it as fast as we can. Anyway, we may still need a month or two. Sometimes it's another matter if it's fast. It needs this time.

Investigator: How about half a month if it's fast?

Fu Zhiren: Hard to day. I can't...I can't guarantee it. Because sometimes he is lucky and his blood type... this blood type, it is possible to have a few more of this.

Investigator: The general situation is probably, most of the cases are...

Fu Zhiren: Probably a month or two, a month or two.

Investigator: A month or two. All right.

Fu Zhiren: It needs this time. Yeah.

Investigator: I would like to ask Professor Fu's help.

Fu Zhiren: No problem. No problem. If you want to find us, go to my outpatient clinic at Ruijin Hospital on Monday. The family can come to me.

Investigator: Monday morning at Ruijin Hospital?

Fu Zhiren: Both morning or afternoon is fine. Either time works. Right, right. You've got to...to go through Ruijin's registration. The number you are calling is Changzheng Hospital. I actually work at both Ruijin and Changzheng. Changzheng Hospital does a little less of this, and Ruijin does a little more. If you'd like to do it, it has to be done in Ruijin.

Investigator: Could you give me your mobile number?

Fu Zhiren: 1390. All right, 1390.

Investigator: Uh, 1390.

Fu Zhiren: Right, 1634.

Investigator: 1634.

Fu Zhiren: 770.

Investigator: 770. Great.

Fu Zhiren: Right, right. Everything will be all right. You can have the family members bring all the materials over, and I will go over the materials with the family members, communicate with the them, and see what is needed, okay?

Investigator: All right.

Fu Zhiren: We'll do our best, okay.

Investigator: Great, that'll be great. I have one more question about the organ. Is the organ usually excised in the hospital excised for simultaneous transplant or taken from outside?

Fu Zhiren: Uh, it depends. Our hospital also has donation as well as the...the outside distribution. These two are combined.

Investigator: Uh, you have all sorts of these.

Fu Zhiren: Right, right. It's a combination of both.

Investigator: Of course, it would be better to do it in this hospital because~

Fu Zhiren: The key is sometimes there are not so many in our hospital, or there is no... no matching blood type.

Investigator: Another thing is the age of this organ, the health status is very important.

Fu Zhiren: Right, right. We'll consider that.

Investigator: Usually you do....

Fu Zhiren: Uh, right. No worry. Nor worry.

Investigator: How old are the organs that you usually do?

Fu Zhiren: Let's me take a call.

Investigator: All right.
...(The content of the phone call is not recorded)

Fu Zhiren: Hello.

Investigator: Hello.

Fu Zhiren: I was called to surgery just now. No worry. We'll make a comprehensive evaluation.

Investigator: Right. The quality of organs really matters. Uh, now over your place, do you have judicial...judicial source of organs over there?

Investigator: Ah, exactly that is it

Fu Zhiren: The state has long banned it.
