#### Phone Investigation Recording

Female staff member: Hello?

Investigator: Hello? Is this Dr. Shen Zhenya's phone number?

Female staff member: Yes, it is.

Investigator: Is Dr. Shen available, please?

Female staff member: Is there anything we can help you with?

Investigator: I hope to consult (with Dr. Shen) about heart transplantation, because someone has recommended him to me.

Female staff member: Hmm, are you a patient's family member? Are you?

Investigator: Yes.

Female staff member: Ah, it's about heart transplantation, right?

Investigator: Right.

Female staff member: Let me see if the director is available or not. Please wait a moment, wait a moment.

Investigator: Thank you!

(After some time...)

Shen Zhenya: Hello?

Investigator: Is that Dr. Shen?

Shen Zhenya: Yes, yes, speaking.

Investigator: Hello, I am calling from overseas. Doctor, I would like to ask you about how long it roughly takes to get an organ for a transplant?

Shen Zhenya: Waiting for organs is like this: basically, we now have them every month. If you come, I estimate that the wait time is a little more than half a month. We should be able to find a donor.

Investigator: Then I've heard about that...do you have any organs from Falun Gong (practitioners)? Are they relatively healthy?

Shen Zhenya: Ah, that kind, that kind of organs. Now on the basis of the donor's consent, we also have some, but they're getting less and less.

Investigator: Now you still have? That is, there are still such cases?

Shen Zhenya: We also have (this kind).

Investigator: Oh, you also have.

Shen Zhenya: Right, right.

Investigator: Roughly how many do you have? Do you have any this year?

Shen Zhenya: There has been one case this year.

Investigator: There has been one case!

Investigator: OK. Well, Doctor, being overseas, we've read some information from the United Nations, saying that the Falun Gong practitioners' organs, which I just mentioned, are harvested alive. That means, it took place without consent...

Shen Zhenya: That was the case several years ago, many years ago. To say that, you normally should have evidence, I think this is... hahaha (laughing)
