The updated version of “Irrefutable Evidence” is a documentary exposing the most detailed and comprehensive evidence on the CCP’s crime of organ harvesting from living Falun Gong practitioners in China. The film presents the key evidence on live organ harvesting collected from more than a decade of investigation by World Organization to Investigate the Persecution of Falun Gong (WOIPFG). Through a series of lectures, it details the logical relationship among different pieces of evidence, the background of the investigation and sources of information, thereby systematically revealing the irrefutable existence of live organ harvesting in China, a crime that is unprecedented in human history.

The film includes the phone investigative recordings of five incumbent and former standing committee members of the Chinese Communist Party Central Politburo, a vice chairman of the Central Military Commission, a defense minister, a former health minister of the General Logistics Department of the People’s Liberation Army, as well as many transplant surgeons, officials of the Political and Legal Affairs Commission, the “610 Office” officials and court officials. It is a full-length documentary and a quick piece of information for people to fully understand and study in depth the CCP’s crime of live organ harvesting.

The film is co-produced by New Tang Dynasty TV and WOIPFG.
